E. C. Blomeyer Writes Story on Texas for Big Magazine

This month's issue of the Illustrated World, a popular mechanical journal, which has just reached the local news-stands, contains among its table of contents, a story on Texas from the pen of Edward C. Blomeyer of this city. The article is illustrated with cuts of various Texas cities, and contains a highly appreciative reference to work done in Waco by the Young Men's Business League. Mr. Blomeyer, who is now assistant to the president of the Texas Telephone company, was formerly a newspaper man.

Money to Martyr's Widow.

(From the European Edition of the New York Herald.)
The British embassy in Paris has handed the French minister for foreign affairs the sum of 5000 francs as a grant for Mme. Jacquet, wife of the Frenchman who has shot at Lille for having hidden and otherwise helped British and French soldiers.

Don't Squeeze Black-Heads--Dissolve Them

Squeezing and pinching out blackheads make the pores large and cause irritation—then, too, after they have become hard you cannot get all of them out. Blackheads are caused by accumulations of dust and dirt and secretions from the skin and there is only one safe and sure way and one that never fails to get rid of them—a simple way: too—that is to dissolve them. Just get from any drug store about two ounces of powdered peroxide—sprinkle a little on a hot, wet sponge—rub over the blackheads briskly for a few seconds—wash off and you'll be surprised to see that every blackhead has disappeared, and the skin will be left soft and the pores in their natural condition—anyone troubled with these unsightly blemishes should try this simple method.

ELLIS COUNTY LEADS NATION IN COTTON

CROP OF 1915 SMALLEST SINCE 1909, ACCORDING TO FEDERAL FIGURES.

Texas Production of 3,227,480 Bales Over One-fifth of Grand Total.

Washington, June 22.—A bulletin on cotton production in the United States, just issued by Director Sam L. Rogers of the bureau of the census, department of commerce, and prepared under the supervision of William M. Steuart, chief statistician in charge of the inquiry, shows that American cotton crop of 1915—11,191,820 equivalent 500-pound bales—to have been the smallest since 1909. The tables contained in this publication will be reprinted in the annual cotton bulletin, to be published about October 1, which will also include more detailed figures as to production, together with data in regard to consumption, imports, exports and stocks of cotton.

The crop of 1915 fell below that of the preceding year by nearly 5,000,000 bales, or more than 30 per cent. The production in every state showed a decrease, the greatest proportionally being in Oklahoma, where the crop of 1915 was only a trifle more than half as large as that of 1914.

The increase in the production of linters during recent years is noteworthy. Starting at 114,544 bales in 1909, the output of this product increased to 886,750 bales in 1915. This 1915 linter product even exceeded that of the preceding year by nearly 24,000 bales, although the cotton crop of 1915 was very much smaller than that of 1914.

This increase in linter production is due to the extent to which the declining of the seed for the better separation of the meat from the hulls, but more especially to the high prices obtained for the fiber, which is used extensively in the manufacture of gun-cotton and smokeless powder. Many mills now obtain considerably more than 100 pounds of linters a ton of seed treated, whereas in earlier years fifty pounds a ton was a high yield.

Sea island cotton, of which 91,844 running bales were ginned in 1915, represented in that year less than 1 per cent of the total cotton produced. All this cotton was grown in Georgia, Florida and South Carolina, the first named state producing 57,572 bales, or more than three-fifths of the total.

Although cotton is grown in eighteen states, the combined product of four—Texas, Georgia, South Carolina and Alabama—represented nearly two-thirds of the total crop of 1915. Texas alone produced 3,227,480 bales, or more than one-fourth of the total crop of 1915. The next greatest production was that of Georgia, 1,908,673 bales, or more than one-sixth of the total. Other states producing large crops were South Carolina, with 1,133,919 bales; Alabama, 1,020,839 bales; Mississippi, 953,965 bales; Arkansas, 816,002 bales; North Carolina, 630,494 bales; and Oklahoma, 535,626 bales.

The leading cotton county in respect to number of bales ginned from the growth of 1915 is Ellis county, Texas, which reported 117,375 bales. The only other county to report more than 100,000 bales was Bolivar county, Miss., in which the ginning amounted to 102,838 bales.

Americans in Terror in Tampico and Tuxpam

Baltimore, June 22.—A state of terror reigned among Americans in the Tampico and Tuxpam sections of Mexico, according to E. C. Rogers, a representative of the Newport News Shipbuilding company, who arrived in port today on the Standard Oil tanker John D. Rockefeller. The Rockefeller left Tuxpam on June 13.

Americans must conceal their identity as such and often must use as English and Germans, said Mr. Rogers, to protect their lives.

The rapid station at Tuxpam operated by Americans was blown up on June 5, and every American vessel reaching there has had its wireless sealed.

A threat has been made to blow the oil wells of the American interests, according to Mr. Rogers, and the fields are practically deserted.

Willard-Fulton Match Is Made for Labor Day

Grafton, W. Va., June 22.—An offer of \$45,000 for a fight on Labor Day between Fred Fulton and Jess Willard was tentatively accepted tonight by Willard's manager, Tom Jones. The offer was made by Harry Sherman and James J. Donnelly of Minneapolis, who met Jones here today. There will be a further conference at New York next Wednesday to complete details of the proposed bout.

Expect Refugees at Vera Cruz

Vera Cruz, Mex., June 22.—Two train loads of Americans and British are expected here tonight. The United States battleship Nebraska has room for very few more refugees.

Vera Cruz remains tranquil. The troops and people are expectantly awaiting orders from General Carranza. Mammoth demonstrations are being held throughout Mexico at which assurances are being given the first chief that the Mexican nation has full faith in him and his actions.

WHY HUGHES WEARS A BEARD.

Runaway Accident Years Ago Left a Scar on Candidate's Cheek. (Detroit News.)

One of the elements which have supported the popular conception of Hughes' aloofness and austerity is his beard. In a day when beards are the exception rather than the rule, the common mind cannot imagine that a man with Hughes' beard could ever smile. But Hughes smiles as often and laughs as heartily in everyday life as any other American.

The truth about the Hughes beard robs it of all its terrors. Years ago, in youth, Hughes figured in a runaway accident. He recovered completely, but a long scar on his cheek remained. Soon after that the beard appeared—and it has been doing its kindly duty ever since.

Consul Garcia announced that 1,000 volunteers for the Carranza army being enrolled in Chihuahua had been recruited from the civilian population of Juarez today following the publication of the news of yesterday's engagement. The consul also issued the following statement:

"The people of El Paso need fear no surprise attacks from the Mexican side of the Rio Grande. Both the civil and military population of Juarez and vicinity have strict instructions to maintain peace and quiet until war is declared."

A message from Gen. Alvaro Obregon, Mexican minister of war, containing a denial of the reports that he had issued a statement today saying he was responsible for the Carrizal engagement and had ordered the Mexican force to attack the Americans was received in Juarez tonight.

Report Says Blacks Made Good Fight

Columbus, N. M., June 22.—The troop of the Tenth cavalry which clashed with Carranzistas yesterday at Carrizal, held the field for five hours before retreating, although they were outnumbered five to one, according to unofficial reports here tonight. The reports said that the Americans only withdrew when heavy Mexican reinforcements were brought up. It was learned that a courier from the battlefield reached General Pershing's field headquarters at Colonia Dublan late today and the expeditionary commanders report is expected over the army wireless momentarily.

Call of Troops for Border Shows Shortcomings of National Guard; Men and Materials Both Lacking

Indiana national guard at maneuvers; Secretary Baker (left) and General A. L. Mills.

Washington, June 22.—When Secretary of War Baker ordered the mobilization of the national guard in every state he took a long step toward settling the dispute as to the efficiency of the organized militia.

No one knows better than the division of militia affairs of the war department, whose chief is Brig. Gen. A. L. Mills, the ailments of the guard. There are severe shortages of men and material alike.

Some time will be necessary to recruit the 22,000 men the national guard lacks to make up even its peace strength of 151,000. It is short by 186,000 men of its full war strength of 337,000.

Of the twelve divisions existing on paper, only two, the Sixth New York and the Seventh Pennsylvania, have a divisional headquarters organized.

More Rumors Place Villa in Juarez

El Paso, Tex., June 22.—Francisco Villa has been in Juarez several times in the last four weeks, according to reports received by agents of the United States secret service here tonight. This story was given some support by the arrival in El Paso yesterday of Mrs. Luz Villa, who subsequently was reported to Mexico. The same reports said that Villa was seen in a public plaza in Chihuahua City about three weeks ago wearing a heavy black beard. Government agents while making every attempt to trace the origin of the rumor, were inclined to place little credence in it. Mexican authorities in Juarez denied the story.

Reported at Escalon.

Washington, June 22.—The war department was investigating a report tonight that Francisco Villa was at Escalon, Chihuahua, negotiating with Carranza officers for a commission in the Mexican army.

Temple Organizing Volunteers

Temple, Tex., June 22.—A company of volunteers is being organized here to offer its services to the president immediately in the event that war with Mexico should be declared and a call to arms received. Local citizens who have had considerable military experience are behind the movement and it is said arrangements have already been made for supplies and equipment, and the proposed company, inasmuch as this is Governor Ferguson's home town has been promised early active service.

Of the thirty-six brigades, on paper, making these divisions, only twenty-eight have their headquarters organized. Due to the troops of many of the brigades and most of the divisions being from different states, and the war department having no regular officers to spare, there is no one available for these staffs.

For the 127 regiments of infantry and cavalry there should be 635 machine guns. At last reports a few weeks ago there were but 172 in the possession of the various regiments. The ordnance department had only 77 available. There were 67 others in the sea coast defenses, but they were needed there.

Transportation is of the utmost importance in any field operation and this will be particularly true in Mexico. Yet the Sixth New York division is the only one with complete regimental and divisional wagon trains. The Seventh Pennsylvania has complete regimental

SHORT OF WAGONS.

The regiments of these divisions need 623 wagons to complete their regular trains. Illinois has enough wagons for its regiments. As a number of the states have not sufficient storage space, the government has stored at Jeffersonville depot 279 wagons with the necessary harness issued to these states. In other words, when they need these wagons and harness, they will have to wait until they can be shipped from Jeffersonville.

The national guard troops are supplied with enough equipment for their peace strength, but, like the regulars, would need additional arms, clothing and equipment for the men enlisted to bring them to war strength. The same holds true with regard to their tentage.

Applications are coming in fast and the company will be ready to report at once in the event of a call for volunteers.

Mexican Consul Arrested.

Columbus, N. M., June 22.—Samuel Luis Sandoval, Mexican consul at Palomas, eight miles south of here, was

placed under arrest by state department officials here today as he was boarding a train for El Paso. He is being detained on violation of neutrality charges.

His family was permitted to leave town. The Mexican customs house at Palomas has disappeared, going south on pack mules. The customs house was abandoned today.

WAR!

One of the most striking displays observed in Waco in a long time may be seen at the office of J. A. Orem & Co. (The Typewriter Store), 703 Austin street. The display represents a fort with miniature cannon and soldiers. The cannon were cast and made by the mechanical department of this store and are perfect models, being capable of being raised and lowered for sighting and firing, with a shooting distance of about 200 yards. The display also includes the happy face of "Uncle Sam" wearing that "smile that won't come off."—Adv.

TUESDAY AUCTION BRIDGE WITH MRS. WILLIAMSON

The regular game for the Tuesday auction bridge was held with Mrs. J. D. Williamson at 10 o'clock. This was the final game of the season, the club having decided to discontinue playing until early fall. Bright colored zinnias were used in abundance throughout the rooms. Mrs. Williamson extended the pleasure of substitute hands to Mrs. Scott Hill, Mrs. Peyton Randall, Mrs. Howell McCullough, Mrs. Mattie D. Willis, Mrs. L. C. Puckett. A mahogany fern bowl went to Mrs. Quintan Finley for successful playing. A bouquet of flowers went to Mrs. Peyton Randall for consolation. This was an enjoyable game with an agreeable hostess.

DEBUTANTE BRIDGE WITH MISS LUCILE LEWIS

The morning game of the Debutante bridge club was played with Miss Lucile Lewis on Wednesday. To the three regular tables comprising the game, there were added two guest tables. This was for return courtesies and to give welcome from Gunston Hall to Miss Virginia Rose and Miss Lalla Fay. Miss Rose, also to pay compliment to Miss Bennett of North Carolina, and Miss De Vooghe of Sherman. Miss Rose and Miss Lacy were unanimously elected members of the club. The extra tables were made up of Misses Enrique Smith, Francis Van Boddie, Ruth Smith, Bennett of North Carolina, De Vooghe of Sherman, Sallie Thompson, Lalla Fay Lacy, Virginia Rose, Winnie Caldwell, Anne Risher, Mable Cham-

bers, Miss Lacy invited the club for next week.

BRIDGE LUNCHEON FOR MISS CRUGER

Miss Lottie Cruger was honored at a very charming bridge luncheon on Wednesday in which Mrs. H. T. Cruger was hostess. The music room and library were decorated with daisies so much sought just now, blended with pink roses. In this courtesy, Mrs. Cruger entertained her club, the Octette, guests and two substitutes. Mrs. Louise Wells and Mrs. Zahn each captured a growing fern in green jardiniere as guest and club favor. White crocheted doilies fell to Mrs. Curry of Tennessee for low cut. A two course luncheon was faultlessly served at 1 o'clock. Invited to meet Miss Cruger other than club members were Mrs. C. H. Harpard, T. N. McMullin, A. C. Elliott, Curry of Tennessee, Louise Wells, Harry Arnold, Miss Cannon of Ovalo, and Miss Goss.

THIRTEEN CLUB WITH MRS. EARLE P. MASSEY

Members of the Thirteen club, which Mrs. Earle P. Massey is a member, were given the pleasure of a bridge luncheon at her home on Colcord avenue Wednesday. This was in recognition of the presence of her niece, Miss Maurine Shaffer, also a parting pleasure as Mrs. Massey and Miss Shaffer are leaving immediately for Colorado to spend the summer. At 1 o'clock the dining room was opened, revealing buffet, serving table and dining table, each bearing its quota of bright-eyed daisies. After the serving of this luncheon, the game was renewed with zest. This was one of the most pleasing of the summer functions. Mrs. W. E. Cresap, Mrs. Rose McGhee and Miss Inesene Gamel were guests of honor. The club includes: Mesdames A. P. Birkhead, D. D. Cannon, William Connor, Hall Etter, N. C. Garland, Herbert Green, George Thomas, Earle Massey, George Thomas, George Reynolds and Miss Belle Taylor.

MISS RUTH EVANS INTRODUCES VISITOR

There were special touches to bespeak the occasion out of the ordinary when Miss Ruth Evans, of the south side welcomed a game of bridge about twenty guests on Wednesday from 4 to 6 o'clock. This was in introduction of the home visitor and sister, Mrs. Fred Evans of Kaufman. Five tables dressed in their bridge covers were placed on the wide gallery of this old southern home, where the exciting game was played. The yard was abloom with the pink crepe myrtle and bowls and baskets of myrtle accentuated the rustic effect. To Mrs. Evans was the trophy to Mrs. William Holt, a blue flower bowl on which crimson butterflies were perched. A similar bowl went to Mrs. Evans as guest prize. Tasty sandwiches and bowls of pink myrtle, on which were poised bright winged butterflies, were sent to Mrs. Forrest Goodman, Mrs. Marion Herz, Mrs. Charles Link, Mrs. De Stuer of San Marcos.

In addition to those composing the game several called for the refreshment feature. This consisted of a frozen salad with dainty sandwiches and cooling punch. This was one of the prettiest parties of the season and Mrs. Evans a very agreeable hostess. Enjoying the game were Mesdames Leslie Stegall, J. W. Bondurant, Ella Lovelace, Charles Link, William Holt, Forrest Goodman, S. H. Burrows, Chas. C. N. Smith, Marion Herz, Adrian Moore, J. W. Whitworth, De Stier of San Marcos Thad Carlisle of Kaufman, Harry Williams of Lorena and Peeler Williams of Lorena, Misses Jane Moore, Jennie Moore and Lilla Davis.

THIRTEEN CLUB WITH MRS. EARLE P. MASSEY

Members of the Thirteen club of which Mrs. Earle P. Massey is a member, were given the pleasure of a bridge luncheon at her home on Colcord avenue Wednesday. This was in recognition of the presence of her niece, Miss Maurine Shaffer, also a parting pleasure as Mrs. Massey and Miss Shaffer are leaving immediately for Colorado to spend the summer days. At 1 o'clock the dining room was opened, revealing buffet, serving table and dining table, each bearing its quota of bright-eyed daisies. After the serving of this luncheon, the game was renewed with zest. This was one of the most pleasing of the summer functions. Mrs. W. E. MISS RUTH EVANS INTRODUCES VISITOR

There were special touches to bespeak the occasion out of the ordinary when Miss Ruth Evans of the bridge side welcomed for a game of bridge about twenty guests on Wednesday from 4 to 6 o'clock. This was in introduction of the home visitor and sister, Mrs. Fred Evans of Kaufman. Five tables were placed in the bridge covers and were placed on the wide gallery of this old Southern home, where the ever-exciting game was played. The yard was ablaze with the pink crests of myrtle and hawthorn and baskets of myrtle accentuated the rustic effect. The prize feature awarded the trophy to Mrs. William Holt, a blue flower bowl on which crimson butterfly covers were placed. A similar bowl went to Mrs. Evans as guest prize. Table prizes were crystal bowls of pink myrtle, on which were poised bright winged butterflies. These fell to Mrs. Forrest Goodwin, Mrs. Marion Herz, Mrs. Charles Link, Mrs. De Stiger of San Marcos.

In addition to those composing the game several called for the refreshment feature. This consisted of a family reunion of the public, the high cost of living and the cost of high living are easily explained. After a book from the library has been in the hands of an average of five persons, it is in such bad condition that it is necessary to take it from circulation and send it to the factory and have it rebound. This costs from fifty cents to three months elapse before it is again placed in circulation. It will be readily observed that the unnecessary and unexplainable carelessness of the public is not only detrimental to the reading public, but quite expensive to the taxpayers who support the library with their hard-earned coin.

Society Notes

Mrs. Walter King with baby Walter and little daughter Bettie, left on yesterday for Seguin to enjoy a family reunion. This is in welcome to the son and brother, Dodson Stamps, who has spent several years in West Point.

"WACO'S GREATEST DEPARTMENT STORE"

Silk Hose, Coffin Nails and Hair Found in Library Books

If the people of Waco handle their own property as carelessly as they do that of the public library, the high cost of living and the cost of high living are easily explained.

After a book from the library has been in the hands of an average of five persons, it is in such bad condition that it is necessary to take it from circulation and send it to the factory and have it rebound. This costs from fifty cents to three months elapse before it is again placed in circulation.

It will be readily observed that the unnecessary and unexplainable carelessness of the public is not only detrimental to the reading public, but quite expensive to the taxpayers who support the library with their hard-earned coin.

A large majority of the public seem to be under the impression that Andrew Carnegie not only presented the beautiful library building to the city of Waco, but that that long-headed and bewhiskered gentleman also furnishes the money to buy the books and pay the polite and capable young ladies who wait upon them when they want to take out books. They are badly mistaken. The only thing the ex-librarian did was to furnish the building.

The people of Waco do the rest. Two cents out of every one hundred dollars raised in this city by taxation is used exclusively for the maintenance of the books and so on.

A surprisingly large portion of this money could be saved if the patrons of the library would refrain from handling the books as though they were made of cast iron or hickory.

Practically the entire services of one of the assistant librarians is required all the time in repairing books. In addition to this it costs in the neighborhood of \$1000 each year for the rebinding of books.

The greater portion of this expense

Just One Application and the Hairs Vanish

(Toilet Talks.) Any woman can keep her skin free from unsightly hair or fuzz if she will follow these simple instructions: When hairy growths appear apply a simple paste, made by mixing some water with powdered delatone. Apply this to hairy surface and after two or three minutes rub off. Wash the skin and the hairs are gone. This is a harmless treatment, but be sure you get the real delatone.

FRECKLES

DON'T HIDE THEM WITH A VEIL! REMOVE THEM WITH THE OTHINE PRESCRIPTION.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by any druggist under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength Othine; it is this that is sold on the money-back guarantee.

DAILY SHORT STORY.

THE HYDRANGEA PINK DRESS.

By ANNE MOREHOUSE.
(Copyright, 1916, by the McClure Newspaper
Syndicate.)

It was during the first figure of the
cotton that Dick Harper noticed the
girl. Even at the disadvantage of hav-
ing his first view of her under the try-
ing rays of calcium light, he saw that
she was unusually pretty and instantly
sawed his partner who she was.

"I never saw her before," said Mary
Brown. "Mrs. Payne can tell you, per-
haps." As the figure progressed, Dick
passed and repassed the pretty girl a
dozen times, determined to make sure
of an introduction when the thing was
over. But, as it happened, he was de-
stined not to wait for in the intricacies
of the dance when four were formed.
He found the girl beside him at his left.
She looked unusually pliant and pretty
under the tiny parasol which the girls
had received as favors while the men
flourished slender walking sticks tied
with ribbons.

At the end of the ballroom four sepa-
rated again into twos and here some-
thing happened. The curved head of
Dick's came caught in the filmy lace of
the fair stranger's bodice and held fast.
He felt the jerk and instinctively let go,
but he would gladly have followed his
favor. At the next meeting the girl held
out the stick with a smile. "This be-
longes to you, I believe," she said.
"Yes, thank you, I am sorry if I tore
your gown." Was all he had time for as
they passed.

His heart was hammering fast. What
was there about this girl that upset him
so?

"Claver little ruse of yours!" laughed
Mary Brown. "You can't teach an old
dog new tricks, can you, Dick? Much
better than a long how-do-you-do in-
troduction! Only that girl will bless
you forever for spilling her dress. It's
the most stunning thing here."

Dick grumbled softly. "She'll think me
a clumsy fool. Really, Mary, I don't
know how it happened. I don't suppose
she will mind a lot. Why didn't Laura
come tonight? It's a pretty party."

"Her new dress didn't come," Mary
blamed him. I call it, but she wouldn't
wear an old one."

"What a shame! But everybody is
busy. My dress did not come home until
8 o'clock. I was at the smelling-salt
stage when it walked in. How do you
like it?"

"Peachy! What color is it?"

"Thanks!"

"Well, with these ghastly colored lights
ever everything one can't tell."

FORCING THEIR FATE.

Whatever may be the circumstances
of the clash at Carrizal, it shows that
a state of war actually exists without
the formality of a declaration.

Carranza has begun offensive opera-
tions to drive American soldiers from
Mexico in the face of the warning
from our government that the gravest
consequences would follow such a
course.

Appeal and argument have proved of
no avail in dealing with Carranza. His
government exists by virtue of the
special favor of this country. He has
proved himself to be a shallow fire-
brand, of no constructive ability, with
an exaggerated idea of his own impor-
tance, and more devoted to upholding
his own dignity than to the upbuilding
of Mexico.

There is no hope for the rescue of
that country from its unhappy condi-
tions under the rule of such leadership,
nor is there any reason to suppose a
better leader can be found. Each man
that accident throws upon the stage,
struts out his brief moment like a pe-
acock, but mainly on the use of the op-
portunity to show his feathers.

Every day our government delays
action now, only postpones the inevi-
table and increases the difficulties
that will be encountered.

Seven thousand cattle were sold re-
cently from a ranch near Electra at
\$75 a head. And Texas has multiplied
thousands of reasons of the same sort
which make for general prosperity.

The fire investigation now going on
at Austin has proved conclusively that
one of the things in Texas that needs
regulation is the business of burning
houses for profit.

Our soldiers who may have to wade
through forests of Mexican cactus will
get comfort from the story of the Jew-
ish exodus. Moses and his followers
had a harrowing experience in the desert
before they reached the land of Canaan.

Governor Ferguson and his support-
ers are planning a campaign which in-
dicates that they have been reading
the story of a man who from his ob-
tuse in Cumbly, and with the aid of a
cob pipe and a lead pencil, stirred up a
hot time in Texas.

Russia has had prohibition for a year
and a half, and the sale of intoxicants
has fallen from a billion rubles an-
nually to about 4 per cent of that sum,
and this chiefly for medicinal purposes.
Yet there are innocents who still say
prohibition does not prohibit.

A \$250,000 factory is being built near
Dallas to manufacture gun cotton, ab-
sorbent cotton and surgical bandages.
This is the reason for Waco to get busy
in the conversion of cotton to meet the
demands of the hour. The metropolis
of cotton, in the heart of the cotton
belt, should share in the benefits to be
reaped from the enlarged use of cotton.

"It's mauve. And the dress you tore
was hydrangea pink. I saw it before
the electric light went off. Watch there,
Dickie. You nearly tore Mrs. Wimple's
hair out of with that stick. Better give
it to me or you'll land in jail."

At last, the two figures of the cotton
were over and Dick went to hunt the
girl. He found her in the balcony and,
as luck would have it, for the instant
alone.

"Did I ruin your gown?" he asked
rather abruptly, for when she turned
toward him his speech was shut
off almost entirely.

"No," she answered sweetly, in-
tending to set him at his ease, but
his eyes up to his speech was shut
off almost entirely.

"You see, it can be mended,"
she held up the flounce that lay close
to a snowy shoulder. "And it doesn't
show much the way it's folded, but—
she stopped.

"But—" he insisted anxiously.
"That's all I can tell you," she said
hastily. "But it really wasn't any
one's fault, so please don't think of
again. Won't you sit down?" His
partner went for some punch, but he
was sidetracked somewhere evi-
dently.

Mary Brown in an interval in
quired, "Have you found out whose
dress you tore?"

"Yes. Her name is Susanne Ra-
leigh. I don't know where she
lives—she won't tell me that—but I
know enough to make up for that.
Barring you, Mary, she's the dearest,
sweetest, loveliest creature I ever
knew."

"Dick, don't lie just for me. You
mean without any exception she's the
most adorable thing you ever saw!"
launched Mary.

The next evening, Dick came home
early from his office for an hour's sleep
before dinner. It had been daylight.
He had not seen her sister at breakfast, so he
not before her door now before turning
in.

"Come in, Dickie," she called. "What
kind of a time did you have?"

"All about it. That's the last time I'll
go to Price for a gown. It never came home
until this afternoon, and isn't it a dream,
too?" She ruefully indicated a crease
of silk and lace on the bed.

"A peach!" Dick answered laconically,
glancing at it and away. Only one dress
interested him just now and the thought
of the wearer was crowding all other
ideas out of his head. He looked back
quickly, however, the color had caught
about the whole thing.

"What color is it?" he asked.

"Hydrangea pink. Something new.
Price says—the only gown she has made
of it so far."

Dick came close to the bed and touched
words.

MARLIN WILL HONOR JUDGING IN FLOWER
PREPAREDNESS TODAY CONTEST CONTINUES

Marlin, June 22.—Marlin merchants
spent the day decorating their stores
and the business streets in preparation
for the big preparedness parade and
trades day features scheduled for to-
morrow. A large number of substan-
tial premiums have been offered for
the best decorated vehicles, and for
other features of the parade, and the
people of Marlin expect to entertain
during the day thousands of visitors
from a radius of fifty miles.

The big parade will take place in the
morning, while the feature of the after-
noon will be the double-header base-
ball game between Marlin and Terrell.

Business men of Marlin are arrang-
ing a definite proposition to be pre-
sented to the I. & G. N. hospital board
at its annual conference in July look-
ing to the establishment of a company
hospital in this city.

A new business house will soon be
added to the new buildings of Marlin,
the structure to be erected on Common
street, opposite the new federal build-
ing, which will be occupied in Sep-
tember. The Marlin commercial club
has contracted for space on the ground
floor for an office.

The following Waco people are reg-
istered at Marlin hotels: C. Hill, Nick
Brewer, C. C. Irwin, H. H. Lasiter,
Mr. and Mrs. T. T. Covey, Charles
Hamilton, Edward Rotan and Roy
Portland.

A large number of cars left here this
evening for Mar, where Hon. Tom
Connally made a speech in the interest
of his candidacy for congress from this
district.

**Looney's Judgment
in Libel Suit Is
Knocked Out**

Texas, June 22.—A decision by
Judges Willson and Levy, with Judge
Hodge dissenting, was handed down in
the Sixth court of civil appeals today
reversing and remanding for new trial
the case of A. H. Belo & Co., publish-
ers of the Dallas-Galveston News, vs.
B. F. Looney, attorney general.

The attorney general charged certain
editorial statements were libelous and
was awarded judgment for \$12,250. In
the aggregate, by the lower court. The
court held that the alleged libelous ar-
ticles were mostly reproduced from
magazines and that the newspaper had
not violated the libel law.

The court also held that a newspaper
has a right to criticize a public official
for public acts.

**Shooting Results in
Death of Negro**

Caldwell, June 22.—Will Rogers, ne-
gro, died yesterday afternoon as a re-
sult of gunshot wounds received last
Tuesday morning. Ed McCulloch, an-
other negro, is being held by the
officers in connection with the shoot-
ing.

**Mart Postmaster
Meets Accident**

Mart, June 22.—Postmaster J. D. Da-
vis happened to quite a serious ac-
cident here yesterday. While fixing a
cove which was staked in his yard, he
became entangled in the rope and was
thrown on the cement walk, cutting a
deep gash in his forehead and break-
ing both arms. He received several
smaller cuts about the head.

Ship Oats from Travis.
Travis, June 22.—This section of the
country has the best prospects for a
good corn crop that it has had for eight
to ten years. Cotton, though about two
weeks late, is looking well.
Mr. McAteer of Lott is shipping two
cars of oats from this point, paying 35c
a bushel for them.

A sleeve. It looked like the same dress
Susanne Raleigh had worn at the ball—
there was the bit of gold embroidery in
front of the waist, the foamy, soft, white
lace over the shoulders, the shepherdess
draping of the heavy silk skirt—every-
thing!

"What kind of lace is this?" He pre-
tended interest and bent low, flat-
back a bit as he spoke. His sister, flat-
teringly, described the whole thing volubly,
but Dick heard not a word. For there
was the place his cane had caught, skill-
fully mended. It was true—so skillfully
his sister would never see it. Most like-
ly—he it was the nevertheless to con-
demn the girl to whom he had lost his
head and heart.

"Do you know Susanne Raleigh?" he
asked abruptly.

"Never heard of her!"
"All right! I never did either. She's
pretty. Met her last night. Waken me
at six, sis, will you? I'm dead tired.
But he didn't take a nap. The shock
of his discovery was too upsetting. He
decided that the dressmaker's assistant
fitted the case best. "Anyway," he argued,
"she looked too sweet to do so wilfully."
A week later, Dick and his sister were
waiting for the elevator of the apart-
ment hotel where they lived when a
girl and an elderly man approached. All
were in evening dress and Laura's cloak
was open. Suddenly the girl came over
and impulsively touched Laura's gown.
Dick wheeled and faced Susanne!

"So it was your dress I wore to the
cotton and tore!" she exclaimed. "Oh,
I've worried so about it! Then sudden-
ly, 'Father, this is Mrs. Morton and her
brother, Mr. Harper. They are neigh-
bors of ours.' You see, we have only
lived here a month!" she explained.

"But I don't understand about the
dress," puzzled Laura. "Are you sure
you wore it? I'm sure it is not torn."
"Perhaps Price fixed it then! It was
this way: My own new dress didn't
come, and when I telephoned at seven
they said it couldn't possibly be fixed,
but that they would send me a model to
wear instead. So when it came I put it
on and departed, and just afterward they
phoned that they had sent the wrong
box and that I had received one intended
for a customer. Father didn't know what
to do about it. I was frantic. I sent it
back and told Price it was torn, but she
said she would make it all right. I'm
so sorry, but really I didn't mean to
do it."

Laura laughed. "I think the dress has
served a very good purpose. Miss Raleigh,
and I'm glad you wore it. Evidently my
brother thought you looked very nice."

And Dick instantly confirmed her
words.

The inspection party of the Rotary
flower garden contest has been busily
engaged for the last three days in
making the rounds in which every gar-
den entered in the contest will be vi-
sited, inspected and graded. The per-
sonnel of the party includes F. W.
Hensel of the horticultural department
of the State Agricultural and Mechan-
ical college; his assistant, Homer L.
Fry, who is in charge of the landscape
gardening of the extension department
of the college; Mordis Falkner, on be-
half of the Rotary club, and Mrs. N.
B. Kent, representing the Welfare
league.

While the whole city has not been
covered in the inspection, competition
among residents of several communi-
ties for some of the 155 prizes being
offered firms and organizations of
the city is very lively. A majority of
the places visited by the judges are
neat and orderly, showing more than
passing interest in the contest. The
grading will be done on a basis of
ten as a perfect score, and the grade
received by the present judgment will
be averaged for the final score, with
the grading received at the final in-
spection, which will be on Sep-
tember 11.

Mr. Hensel is an authority on horti-
culture and its kindred subjects, hav-
ing specialized on these subjects at
Cornell university, and having much
practical experience in the work. There
is probably no man in the state so ably
equipped to do judging in Waco's con-
test as Mr. Hensel.

The judging will last until the end
of the week, likely being completed
Saturday noon. Mr. Hensel says that
the homes that have been visited so
far in the inspections have been, as a
rule, well cared for in the matter of
flowers. He had not expected the in-
terest in the flower contest to be so
general among the tenants and small
home owners.

The officers of the Welfare league,
under whose auspices the contest is
being held, are dreaming of a more
beautiful Waco next summer than it
has ever been before, and with the ex-
perience gained this year in the Wa-
co flower gardens and the flower contest,
and with an earlier start than it was
possible to make this year, they hope
to flood the city with useful truck gar-
dens cultivated by the school chil-
dren, and flower beds in every yard.
Mr. Hensel said that the effect of the
flowers, tastefully arranged grounds, and
general civic beauty was enormous on
the individuals of the community, but
particularly on the children.

**Spot Cotton Brings
Fourteen Cents at
Galveston**

Galveston, June 22.—Cotton sold on
the spot market here today at 14c
a pound, the highest price since the out-
break of the European war. Today's
sales involved considerable quantities
of staple, though the exact number of
bales was not given out. The price
was higher than the local exchange
quotation. Diminution of the visible
supply of cotton is given as the reason
for the advance in price. Yesterday's
quotation was 13.40c.

**Elsie Smith Shoots

Part of the Arm**

Gatesville, June 22.—Over trouble re-
ported to have been of some time
standing, yesterday evening Elsie
Smith shot King Huff in the fleshy
part of the arm. Smith phoned the

**Abstractors Select
Waco for Next Year**

Austin, June 22.—After an interest-
ing session of three days, the annual
convention of the Texas Abstractors'
association adjourned today. The fol-
lowing officers were elected: W. E.
Higginbotham, Bailey, Logan and com-
pany, Dallas; A. B. Frank, company,
San Antonio; Perkins Brothers, Sanger
Brothers and Smith McCord Dry Goods
company.

Special Election Called.
Austin, Tex., June 22.—Governor
Ferguson today issued a proclamation
for a special election to be held in the
Twenty-seventh senatorial district on
July 22, the date on which the general
primaries are held to fill the vacancy
caused by the recent resignation of
Senator Harris of Temple. This dis-
trict is composed of Bell, Bosque, Ham-
ilton, Coryell counties. Senator Harris
was a holdover.

Home and State Sued.
San Antonio, Tex., June 22.—Alleging
that Home and State, the Dallas pro-
hibition organ, had termed him a "ne-
gro," when he is a white person, Dr. G.
S. Lincoln of San Antonio this morning
filed libel suit for \$25,000 damages
against that paper and several persons.
The defendants named include Dr. A. J.
Barton, Thomas P. Love, Robert P.
Schuler, W. J. Herwig and the Anti-Sa-
loon League of Texas and America. The
article is said to have appeared in
Home and State June 1.

Connally at Mart.
Mart, June 22.—Tom Connally of
Marlin, candidate for congress, re-
ceived a sympathetic hearing here to-
night before a large audience that con-
tained several visitors from Waco and
from the candidate's home town. Dr.
M. L. Langford paid Mr. Connally a
high compliment in his introduction.
Music for the occasion was furnished
by the Mart band.

**Special Train Kills
Gatesville Child**

Gatesville, June 22.—The Cotton Belt
special, bearing the officers of the
road, while returning East late yes-
terday evening, ran over and killed the
10-year-old daughter of Mrs. Nance
near Leon Junction. One report says
that she was walking beside the track
and was drawn under the train by suc-
tion.

**Ferguson Issues
Challenge to Morris**

Austin, June 22.—Governor Ferguson
today issued a defi to C. H. Morris to
discuss with him the issues in the
present campaign as evolved by Mor-
ris. The challenge was in the nature
of an invitation to discuss with him
when he spoke at Dallas on Wednesday
night, June 28, at 8 o'clock. The gov-
ernor advises Mr. Morris of the invita-
tion, stating that he is doing so at
this early date in order to allow him an
opportunity to make arrangements.

DAILY SHORT STORY.

THE HYDRANGEA PINK DRESS.

By ANNE MOREHOUSE.
(Copyright, 1916, by the McClure Newspaper
Syndicate.)

It was during the first figure of the
cotton that Dick Harper noticed the
girl. Even at the disadvantage of hav-
ing his first view of her under the try-
ing rays of the calcium light, he saw that
she was unusually pretty and instantly
asked his partner who she was.

"I never saw her before," said Mary
Brown. "Mrs. Payne can tell you, per-
haps." As the figure progressed, Dick
passed and repassed the pretty girl a
dozen times, determined to make sure
of an introduction when the thing was
over. But, as it happened, he was de-
cided not to wait, for in the intricacies
of the dance when four were formed
he found the girl beside him at last. She
looked unusually piquant and pretty
under the tiny parasol which the girl
had received as favors while the men
flourished slender walking sticks tied
with ribbons.

At the end of the ballroom four sepa-
rated again to two and here some-
thing happened. The curved head of
Dick's came caught in the filmy lace of
the fair stranger's bodice and held fast.
He felt the jerk and instinctively let go.
But he would gladly have followed his
partner. At the next meeting the girl held
out the stick with a smile. "This be-
longs to you, I believe," she said.

"Yes, thank you, I am sorry if I tore
your gown," was all he had time for as
they passed.

His heart was hammering fast. What
was there about this girl that upset him
so?

"Clever little ruse of yours!" laughed
Mary Brown. "You can't teach an old
dog new tricks, can you, Dick? Much
better than a regular how-do-you-do in-
troduction! Only that girl will blow
you forever for spoiling her dress. It's
the most stunning thing here."

Dick grumbled softly. "She'll think me
a clumsy fool. Really, Mary, I don't
know how it happened."

"It doesn't matter. I don't suppose
she will mind a lot. Why didn't Laura
come tonight? It's a pretty party."

"Her new dress didn't come. Too
blamed bad, I call it, but she wouldn't
wear an old one."

"What a shame! But everybody is
busy. My dress did not come home until
8 o'clock. I was at the smelling-salt
stage when it walked in. How do you
like it?"

"Peachy! What color is it?"

"Thanks! Well, with these ghastly colored lights
over everything one can't tell."

FORCING THEIR FATE.

Whatever may be the circumstances
of the clash at Carrizal, it shows that
a state of war actually exists without
the formality of a declaration.Carranza has begun offensive opera-
tions to drive American soldiers from
Mexico in the face of the warning
from our government that the gravest
consequences would follow such a
course.Appeal and argument have proved of
no avail in dealing with Carranza. His
government exists by virtue of the
special favor of this country. He has
proved himself to be a shallow fire-
brand, of no constructive ability, with
an exaggerated idea of his own impor-
tance, and more devoted to upholding
his own dignity than to the upbuilding
of Mexico.There is no hope for the rescue of
that country from its unhappy condi-
tions under the rule of such leadership,
nor is there any reason to suppose a
better leader can be found. Each man
that accident throws upon the stage,
struts out his brief moment like a pe-
acock, but mainly on the use of the op-
portunity to show his feathers.Every day our government delays
action now, only postpones the inevi-
table and increases the difficulties
that will be encountered.Seven thousand cattle were sold re-
cently from a ranch near Elctra at
\$75 a head. And Texas has multiplied
thousands of reasons of the same sort
which make for general prosperity.The fire investigation now going on
at Austin has proved conclusively that
one of the things in Texas that needs
regulation is the business of burning
houses for profit.Our soldiers who may have to wade
through forests of Mexican cactus will
get comfort from the story of the Jew-
ish exodus. Moses and his followers
had a harrowing experience in the de-
sert before they reached the land of
Canaan.Governor Ferguson and his support-
ers are planning a campaign which in-
dicates that they have been reading
the story of a man who from his ob-
lance in Cumby, and with the aid of a
cob pipe and a lead pencil, stirred up a
hot time in Texas.Russia has had prohibition for a year
and a half, and the sale of intoxicants
has fallen from a billion rubles an-
nually to about 4 per cent of that sum,
and this chiefly for medicinal purposes.
Yet there are innocents who still say
prohibition does not prohibit.A \$250,000 factory is being built near
Dallas to manufacture gun cotton, ab-
sorbent cotton and surgical bandages.
This is the reason for Waco to get busy
in the conversion of cotton to meet the
demands of the hour. The metropolis
of cotton, in the heart of the cotton
belt, should share in the benefits to be
reaped from the enlarged use of cotton.

"It's mauve. And the dress you tore
was hydrangea pink. I saw it before
the electric light went off. Watch there,
Dickie. You nearly tore Mrs. Wimples
hair net off with that stick. Better give
it to me or you'll land in jail."

At last, the two figures of the cotton
were over and Dick went to hunt the
girl. He found her in the balcony and
as luck would have it, for the instant
alone.

"Did I ruin your gown?" he asked
rather abruptly, for when she turned
her eyes up to his speech was shut
off almost entirely.

"No," she answered sweetly, in-
tending to set him at his ease, but
only causing more havoc in his
brain. "You see, it can be mended."

She held up the flounce that lay close
to a snowy shoulder. "And it doesn't
show much the way it's folded, but—"
she stopped.

"But," he insisted anxiously.
"That's all I can tell you," she said
hastily. "But it really wasn't any-
one's fault, so please don't think of it
again. Won't you sit down?"

His partner went for some punch, but he
was sidetracked somewhere evi-
dently.

Mary Brown in an interval in-
quired, "Have you found out whose
dress you tore?"

"Yes. Her name is Susanne Ra-
leigh. I don't know where she
lives—she won't tell me that—but I
know enough to make up for that.
Barring you, Mary, she's the dearest,
sweetest, loveliest creature I ever
knew."

"Dick, don't lie just for me. You
mean without any exception she's the
most adorable thing you ever saw?"

The next evening, Dick came home
early from his office for an hour's sleep
before dinner. It had been daylight, al-
most, before he had got to bed. He had
not seen his sister at breakfast, but he
rapped on her door now before turning in.

"Come in, Dickie," she called. "What
kind of a time did you have? Tell me
all about it. That's the last time I'll go
to bed for a gown. It never came home
until this afternoon, and isn't it a dream,
too?" She ruefully indicated a crease
of silk and lace on the bed.

"A peach," Dick answered laconically,
glancing at it and away. Only one dress
interested him just now and the thought
of the wearer was crowding all other
ideas out of his head.

"There was something familiar
about the whole thing."

"What color is it?" he asked.

"Hydrangea pink. Something new.
Price says—the only gown she has made
of so far."

Dick came close to the bed and touched

a sleeve. It looked like the same dress
Susanne Raleigh had worn at the ball—
there was the gleam of gold embroidery
front of the waist, the foamy, soft white
lace over the shoulders, the shepherdess
draping of the heavy silk skirt—every-
thing.

"What kind of lace is this?" He pre-
tended interest and bent low, turning
back a bit as he spoke. His sister, flat-
tered, described the whole thing slowly,
but Dick heard not a word. For there
was the place where his cane had caught, ac-
tually mended, it was true—so skillfully
his sister would never see it, most like-
ly—but it was there nevertheless to con-
demn the girl to whom he had lost his
head and heart.

"Do you know Susanne Raleigh?" he
asked abruptly.

"Never heard of her."

"All right! I never did either. She's
pretty. Met her last night. Waken me
at six, sis, will you? I'm dead tired."

But he didn't take a nap. The shock
of his discovery was too upsetting. He
thought of every explanation, but de-
cided that the dressmaker's assistant fit-
ted the case best. "Anyway," he argued,
"she looked too sweet to do it wilfully.
I'm sure there is a mistake somewhere."

A week later, Dick and his sister were
waiting for the elevator of the apart-
ment hotel where they lived when a
girl and an elderly man approached. All
were in evening dress and Laura's cloak
was open. Suddenly the girl came over
and impulsively touched Laura's gown.
Dick wheeled and faced Susanne!

"So it was your dress I wore to the
cotton and tore?" she exclaimed. "Oh,
I've worried so about it!" Then sudden-
ly, "Father, this is Mrs. Morrison and her
brother, Mr. Harper. You see, we have only
lived here a month!" she explained.

"But I don't understand about the
dress!" puzzled Laura. "Are you sure
you wore it? I'm sure it is not torn."

"Perhaps Price fixed it then! It was
this way. My own new dress didn't
come, and when I telephoned at seven
they said it couldn't possibly be finished,
but that they would send me a model to
wear instead. So when it came I put it
on and departed, and just afterward they
phoned that they had sent the wrong
box and that I had received one intended
for a customer. Father didn't know what
to do about it and when I came home
and heard it was frantic. I sent it
back and told Price it was torn, but she
said she would make it all right. I'm
so sorry, but really I didn't mean to do
it."

Laura laughed. "I think the dress has
served a very good purpose. Miss Raleigh,
and I'm glad you wore it. Evidently my
brother thought you looked very nice."

And Dick instantly confirmed her words.

The inspection party of the Rotary
flower garden contest has been busily
engaged for the last three days in
making the rounds in which every gar-
den entered in the contest will be vis-
ited, inspected and graded. The per-
sonnel of the party includes F. W.
Hensel of the horticultural department
of the State Agricultural and Mechan-
ical college; his assistant, Homer L.
Fry, who is in charge of the landscape
gardening of the extension department
of the college; Mordis Falkner, on be-
half of the Rotary club, and Mrs. N.
B. Kent, representing the Welfare
league.While the whole city has not been
covered in the inspection, competition
among residents of several communi-
ties for some of the 155 prizes being
offered is very lively. A majority of
the places visited by the judges are
neat and orderly, showing more than
passing interest in the contest. The
grading will be done on a basis of
ten as a perfect score, and the grade
received by the present judgment will
be averaged for the final score, with
the grading received at the final in-
spection, which will be on Septem-
ber 11.Mr. Hensel is an authority on horti-
culture and its kindred subjects, hav-
ing specialized on these subjects at
Cornell university, and having much
practical experience in the work. There
is probably no man in the state so ably
equipped to do judging in Waco's con-
test as Mr. Hensel.The judging will last until the end
of the week, likely being completed
Saturday noon. Mr. Hensel says that
the homes that have been visited so
far in the inspections have been, as a
rule, well cared for in the matter of
flowers. He had not expected the in-
terest in the flower contest to be so
general among the tenants and small
home owners.The officers of the Welfare league,
under whose auspices the contest is
being held, are dreaming of a more
beautiful Waco next summer than it
has ever been before, and with the ex-
perience gained this year in the Wel-
fare gardens and the flower contest,
and with an earlier start than it was
possible to make this year, they hope
to flood the city with useful truck gar-
dens cultivated by the school chil-
dren, and flower beds in every yard.
Mr. Hensel said that the effect of the
flowers, tastefully arranged grounds, and
general civic beauty was enormous on
the individuals of the community, but
particularly on the children.Spot Cotton Brings

"A Trip Through the Factory"

(Continued)

Answering some of the questions most frequently asked by subscribers concerning the working of a telephone exchange.

9. "How does the operator know when I am through talking?"

In the answer to question two (see preceding articles of this series) we explained how, when you call "Central," a small electric lamp lights on the switchboard and shows your telephone number. Besides these "line lamps," there are also, on each operator's "position" on the switchboard, other electric lamps called "supervisory lights." There is a small supervisory lamp for each cord of each pair of cords on the position, and, also, larger supervisory lamps near the top of the face of the switchboard.

Therefore:

When you call "Central," your "line lamp" lights on the switchboard and tells the operator that you are calling her.

When you "jiggle the hook" to hurry up the operator, or to get her attention after you have completed one conversation, but before you hang up your receiver, a "supervisory lamp" flashes on the switchboard—the supervisory lamp that indicates the connecting cord and plug used in your connection.

When you "hang up," after completing your conversation, that fact is indicated also by the little supervisory lamp on your connecting cord. Likewise, when the party to whom you were talking "hangs up," a supervisory lamp indicates that fact—and when you both hang up the operator takes down the connecting cords.

The larger supervisory lights—red, green and white—indicate, meanwhile, the status of your connection, and keep the operator informed concerning it.

Telephone switchboard operating, therefore, consists—as some telephone man has remarked—in "keeping the lights out."

"DODSON'S LIVER TONE" BETTER THAN CALOMEL AND CANNOT SALVATE.

Calomel loses you a day! You know what calomel is. It's mercury, quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your drug-gist sells for 50 cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and cannot salivate.

Don't take calomel! It makes you sick the next day. It loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

Casino Dance Proves Popular Affair

Last night proved a gala time at the Cameron Park Casino and the "jittery" dance again scored its popularity. The refreshing breeze and the appeal of Gladden's orchestra combined to make the dance a winner. George Stubbfield, who has given to Waco pleasure-lovers the popular Casino, believes that the increasing attendance through the season may soon make possible a dance every night.

WONDERMIST MAKES FIRST AIR WINDOW FRIENDS WHENEVER IT IS GIVEN A TRIAL AT GOLSTEIN-MIGEL ATTRACTING MANY

"Will it repeat?" is a question that every seller of merchandise asks himself before he buys wares for his shop. There are many things that look good and that advertising will sell, but the real proof of the merit of an article comes when a customer buys an article and goes back to the same place and says, "Give me some more of the same kind; it's the best I have ever seen."

This is just what is happening every day to customers who are using Wondermist. The Wondermist people spent nearly \$1,000,000 in printer's ink in putting it before the American people, but if Wondermist was not a product that would make people come back, it would soon play out. Just today L. M. Crow of Crow Bros. laundry came into the store of Percy Willis and while the Wondermist man was transacting some business with this firm, and called for "more Wondermist" with the statement that "Wondermist is the best thing to clean and keep cars polished I have ever seen and I have used many kinds of car cleaners." There is the answer to the whole story. Wondermist is not an experiment; it is all that it is claimed, and because it is an honest product the Spencer-Carroll company took the state agency for it, spending thousands of dollars for their first order, and H. A. Armstrong has taken the jobbing agency. A public demonstration is being held today at J. C. Killgore's garage and tomorrow at the Herick Hardware company, and it's a good chance to get that car cleaned up free.

Railroads Are Giving Their Side of Strike Question to Public

The railroads of the country are sending out literature to Waco which sets forth their claims in the matter of the demands which are being made by the labor unions.

The railroads claim, in concrete form that the demands for an eight-hour day which are being made will entail an expense annually to the railroads of \$100,000,000, which they say the people of the country will have to pay, as the railroads have no way of getting money except by getting it from the people. The railroads estimate that this hundred million dollar increase annually would mean an increase of \$5 for every family in the United States.

It is stated in the literature that trainmen and engineers constitute but 18 per cent of the railroad employees of the country, but that their wages constitute already 28 per cent of the total wages paid all railroad employees.

It is stated in the circular that "the people pay the freight," ultimately, and should be informed regarding the proposed "eight hour" demand because it means a big outlay for the whole public.

E. C. Cannon Sees Much Progress in This City

E. C. Cannon of Pecos City, formerly of Waco, was here yesterday for awhile, between trains, and expressed surprise at the growth of this city in the last few years.

Mr. Cannon, who left Waco about ten years ago, is now living in Pecos City, and is in splendid health. Mr. Cannon asked about cattle conditions, saying that his section of the country had not been as fortunate as some others, in that there had been too little rain for grass, with the result that many in that part of the state are now feeding their cattle. Hardly any rain has fallen during the last year, he said. Regarding railroad building in Texas, Mr. Cannon said:

"I want to see the state adopt a more liberal policy toward the railroads. There is a lot of development work ahead which only the railroads can do, and I certainly hope that they will be dealt with liberally so as to encourage them properly. We people living in West Texas realize the need of a liberal policy more than those who have more roads, though no section of Texas is developed as it should be with regard to railroads."

FOUR WEEKS IN HOSPITAL

Mrs. Brown Finally Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Cleveland, Ohio.—"For years I suffered so sometimes it seemed as though I could not stand it any longer. It was all in my lower organs. At times I could hardly walk, for if I stepped on a little stone I would almost faint. One day I did faint and my husband was sent for and the doctor came. I was taken to the hospital and stayed four weeks but when I came home I would faint just the same and had the same pains.

A friend who is a nurse said for me to try Lydia E. Pinkham's Vegetable Compound. I began taking it that very day for I was suffering a great deal. It has already done me more good than the hospital. To anyone who is suffering as I was my advice is to stop in the first drug-store and get a bottle of Lydia E. Pinkham's Vegetable Compound before you go home."

Giving a realistic impression of the field work done by the Red Cross society is big display window in the Goldstein-Migel company store, which created much interest yesterday afternoon when the window was opened. The window shows a Red Cross nurse attending a wounded Texas regiment soldier near a Red Cross field tent. Close by is a Boy Scout orderly, used sometimes in the Red Cross service. An educational part of the display is some of the permanent hospital and emergency supplies, such as bandages, antiseptics, stretchers and various first-aid packages. The tent, figures and army atmosphere gained by the guns, etc., occupies the large corner display window at the store. The background of the display is composed of large American flags, making altogether a very patriotic showing. The window is the result of the handiwork of W. L. Huntsman, window dresser of the Goldstein-Migel company.

Railroad Employees' Demands Lose Favor With Speakers' Club

The Waco Speakers' club met in the chamber of commerce suite last evening, at which time the following program was carried out:

Question for debate, "Resolved, that the demands of all railway train crews for an eight hour day, and time and a half for overtime, should be complied with." The affirmative enthusiasts were J. W. Walker and Oscar Adwan, while the negative was represented by C. Allen and W. R. Anderson. The judges decided in favor of the negative, voting W. R. Anderson special mention as being the best speaker on the debate. Speaker Ed Johnston, in his usual forceful and humorous manner rendered the critic's report.

The program committee chairman announced the following program for Thursday, June 23, which will be the last meeting before the banquet:

Oration, W. Roy Christian. Debate, "Resolved, that homestead and other exemptions in Texas should be limited to a value not exceeding \$5000." The affirmative speakers will be W. A. Blair and Billie S. Hammond, while the negative enthusiasts will be J. N. Gann and J. N. Gann.

The president reported that the challenge extended the West Speakers' club had been practically accepted and motion carried to make the necessary arrangements for same by the program committee.

In the absence of the recording secretary, Oscar Adwan was appointed by President McCormick to act in his place.

Dr. I. Block Lectures to Baylor Students on Weather

Dr. I. Block's lecture on the "Practical Forecasting of Weather" was heard by a large number of students and teachers at Baylor university last night. Dr. Block is counted the best known weather expert in this section of the state and his lecture last night reviewed the entire intricate question of weather forecasting. He explained the system by which the federal government keeps touch on the entire weather status of the nation and how it uses the information to forecast conditions in various parts and to warn farmers or shipping interests in times of marked fluctuations.

To make his case clear, Dr. Block reviewed the path of a low atmospheric pressure and storm cyclone, illustrating his talk by stereoscopic slides which he had had prepared especially for the occasion. According to Dr. Block, the maneuvering of the weather is a romance of itself.

SALE OF BIBLES SHOWS THIS CITY TO BE COSMOPOLITAN

American Bible Society Agents Have Answered Call for Ten Languages.

That Waco is a cosmopolitan city is abundantly borne out in the report of the American Bible society representatives as to the number of different languages in which they are circulating Scriptures here. Already they have distributed them in nine different languages and are expecting to run that number up to twenty-one before next Saturday night. English, Spanish, German, Italian, Portuguese, Greek, Chinese, Arabic and Esperanto are the languages that have been put out up to this time. Not a few foreigners already have been agreeably surprised to find Bibles available in their own tongue at such low prices.

Miss Norwood E. Wynn, who has had a number of years of very successful experience in missionary work with the Mexican people, both in Mexico and the United States, came in yesterday to aid in reaching the Mexican people here with Scriptures. It is reported that the Scriptures have been offered in most of the saloons of the city and with pleasing results to the workers. It is stated that they were kindly and courteously received; that numbers of the saloon men said they had Bibles and read them, and in some instances recommended that their customers buy and read them.

One bartender is quoted as saying that there was no reason why an honest man with a Bible should meet with anything but the most courteous treatment from saloon men.

Several employers of large forces have kindly given opportunities to the Bible men to reach their workers at their establishments at some convenient time during the day, according to Mr. Chennault, who is supervising the work. He states that such opportunities are very helpful in view of the fact that they have to stay here and that it is much appreciated. He says the house-to-house work which is going on as rapidly as possible is bringing to light many homes without Bibles almost all of which are supplied by sale or donation, according to the need.

Working Boys Hear Lecture on Subject of "Courtesy"

S. R. Hankins, secretary of the local Y. M. C. A., spoke to the Working Boys' club at the regular weekly meeting last night on the subject of "Courtesy." Mr. Hankins told the boys that the characteristic of being genteel and courteous was a great personal asset, and was worth cultivating earnestly. He spoke of the need of keeping the body neat and clean, and insisted that it was worth while to be morally clean on the inside as well as on the outside.

Reviews of books by Jimmie Pearson, Alton Holley and Ferril Below proved an interesting part of the evening's program.

The boys will hold a mock court next week with Ruben Hicks as the judge. Dr. C. E. Collins, on the subject of "Flies," will be the speaker for next Thursday.

"A Trip Through the Factory"

(Continued)

Answering some of the questions most frequently asked by subscribers concerning the working of a telephone exchange.

9. "How does the operator know when I am through talking?"

In the answer to question two (see preceding articles of this series) we explained how, when you call "Central," a small electric lamp lights on the switchboard and shows your telephone number. Besides these "line lamps," there are also, on each operator's "position" on the switchboard, other electric lamps called "supervisory lights." There is a small supervisory lamp for each cord of each pair of cords on the position, and, also, larger supervisory lamps near the top of the face of the switchboard.

Therefore:

When you call "Central," your "line lamp" lights on the switchboard and tells the operator that you are calling her.

When you "jiggle the hook" to hurry up the operator, or to get her attention after you have completed one conversation, but before you hang up your receiver, a "supervisory lamp" flashes on the switchboard—the supervisory lamp that indicates the connecting cord and plug used in your connection.

When you "hang up," after completing your conversation, that fact is indicated also by the little supervisory lamp on your connecting cord. Likewise, when the party to whom you were talking "hangs up," a supervisory lamp indicates that fact—and when you both hang up the operator takes down the connecting cords.

The larger supervisory lights—red, green and white—indicate, meanwhile, the status of your connection, and keep the operator informed concerning it.

Telephone switchboard operating, therefore, consists—as some telephone man has remarked—in "keeping the lights out."

(To be continued.)

TEXAS TELEPHONE COMPANY**CALOMEL MAKES YOU SICK, UGH!**

"DODSON'S LIVER TONE" BETTER THAN CALOMEL AND CANNOT SALIVATE.

Calomel loses you a day! You know what calomel is. It's mercury, quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and cannot salivate.

Don't take calomel! It makes you sick the next day. It josses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

METHODIST WOMEN TO CAMPAIGN FOR AUXILIARY TODAY

Methodist women of the various church societies will conduct a systematic campaign of the city today in an effort to see each woman of the church who is not a member of the auxiliary in order to line her up with the women's work. The campaign here today is in connection with the movement among the women of Southern Methodism to get every woman church member affiliated with the auxiliary. There are approximately 2,000,000 women members of the church and there are only 200,000 auxiliary members. "Every woman a member" is the goal. An earnest request is made by the leaders of the campaign for every Methodist woman to remain at home today so that the campaign may have a chance to visit her and talk the matter of membership over. Following the campaign by the various church organizations and the results of the campaign canvassed. Prayer committees will be a part of the campaign plans.

Twenty-one teams will be engaged in this work on the part of the women's auxiliary of the Austin Avenue Methodist church. The other teams from the other Methodist churches are: Fifth street, 5; Herring avenue, 6; Clay street, 5; Morrow street, 10.

The Austin Avenue teams will meet at the church at 9 o'clock this morning. Mrs. S. R. Hankins, Mrs. W. L. Perry and Mrs. B. C. Nettles are in charge. This church has 140 members, who do not belong to the auxiliary. The reception will be held in the home of Mrs. Nettles at 6:30 this evening.

Teams of Morrow street church will meet at the church this afternoon at 4 p. m., reception will follow tonight on the lawn. This church has about eighty women who are not members. The campaign teams of the Clay street church and the prayer committee will meet at 9 a. m. today, with the reception coming next Wednesday. Elm street church will not conduct the campaign until later.

The Fifth street teams will meet this afternoon at the church, with the reception later. There are about a hundred women in the church not affiliated with the auxiliary. Women of the Herring avenue church will have prayer in their homes this morning at 9:30 for the success of the campaign. There are forty women to be lined up for the auxiliary. The reception comes this evening at the church with a demonstration of the auxiliary work.

Witnesses Tell of Giles' Killing

Muskogee, Okla., June 22.—The story of the murder of Sheriff Giles of Beaumont, Texas, in the chair car of a Missouri, Kansas & Texas passenger train soon after it had left Muskogee, March 24, was told by the state's witnesses in the district court today where Paul and Ida Hadley are on trial jointly charged with his murder. Paul Hadley was in the custody of the sheriff en route to Beaumont to stand trial there on charges of assault and robbery at the time Giles was killed.

Passengers in the car swore they had seen Ida Hadley walk up the aisle behind the sheriff, who lay asleep, draw a revolver from her bosom and shoot the officer in the back of the head. The prosecution has several other witnesses yet to be heard.

Leroy Perkins of Katy, Texas, saw the tragedy enacted from a point of vantage behind his suit case. His testimony was much the same as the others.

"What did Giles do when he was shot?" he was asked.

"He never moved."

"What did the woman do?"

"Stepped around behind the sheriff."

"What did Paul Hadley do?"

"He jumped across the aisle to the sheriff."

"What did he do then?"

"He seemed to be searching the sheriff."

"What did Ida Hadley do?"

"She held the gun on me, for one."

"What had you done when she fired?"

"Fell out of my seat behind my suit case."

"What did she say?"

"She said for me to get back."

"What were her exact words?"

"You, get back in your seat or I'll blow your brains out, too."

"Did you get back?"

"I did."

"Did you see anything in the hands of Paul Hadley as he left the sheriff?"

"Yes, sir, a revolver."

Cream Cake

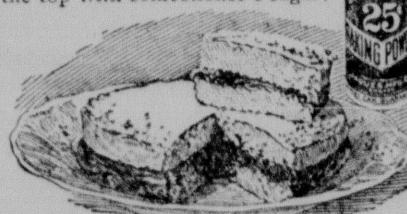

Inquiries among a large number of women using "The Cook's Book" showed this to be their favorite cake recipe. It is easy to make, certain to turn out well if K C Baking Powder is used, and may be put together with almost any filling or icing.

K C Cream Cake

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine.

One-half cup butter; 1 cup sugar; yolks of 2 eggs; 1 cup light; 12 cups sifted flour; 2 level teaspoons K C Baking Powder; 1 cup cold water; whites of 2 eggs, beaten dry.

Cream the butter; add the sugar, yolks of eggs and water; then the flour, sifted three times with the baking powder; lastly the whites of eggs. Bake in two or three layers; put these together with cream filling, and dredge the top with confectioner's sugar.

Cream Filling

One-fourth cup sifted flour; 1 teaspoon salt; 1 cup hot milk; 1 egg, beaten light; 1 cup sugar; 1 teaspoon vanilla extract; 1 ounce chocolate.

Mix flour and salt with a very little cold milk; stir into the hot milk and cook ten minutes; add the chocolate and stir until it is melted and evenly blended with the flour mixture, then beat in the egg mixed with the sugar, and lastly the vanilla.

You need the K C Cook's Book, containing this and 89 other delicious recipes—sent free upon receipt of the colored certificate packed in every 25-cent can of K C Baking Powder. Send to the Jacques Mfg. Co., Chicago.

MRS. J. J. ASTOR FORFEITS \$5,000,000 AND PALATIAL NEW YORK HOME TO WED AGAIN

Mrs. J. J. Astor and Fifth avenue home she forfeits.

Bar Harbor, Maine, June 22.—Mrs. John Jacob Astor and William F. Dick of New York, were married at St. Saviour's Episcopal church. Only members of the two families and a few intimate friends were present.

Eastern society was keenly interested in the recently reported engagement and approaching marriage of Mrs. Madeline Force Astor to Mr. William F. Dick, Brooklyn business man, and prominent among the oldest families of that city.

The match is especially interesting when it is recalled that under the terms of Colonel Astor's will the bride relinquishes the Astor income and fortune in marrying a second time. She gives up the famous old mansion at 840 Fifth avenue. The \$5,000,000 trust fund and the house reverts to young Vincent Astor, Colonel Astor's son by a former marriage. Mrs. Astor as Mrs. Dick will still have the care of the 4-year-old John Jacob Astor, 2d, on whom \$3,000,000 was settled by the father.

Madeline Talmage Force was eighteen years old when society was astonished with the news of her engagement to Colonel Astor. He had been divorced from Ava Willing Astor scarcely a year when he met Miss Madeline Force, a lovely debutante, at a dinner party at her father's home.

Madeline's father made the formal announcement of the betrothal.

MINISTERS REFUSE TO TIE THE KNOT.

The divorce decree given the first Mrs. Astor forbade a second marriage by her husband, but this Colonel Astor was prepared to ignore. Aside from any general criticism of the alliance there appeared a new difficulty. It was some time before a clergyman could be found who was willing to officiate. All arrangements for the marriage were made and the date almost at hand and still no minister was to be found who would join their hands. At the last moment, Rev. Joseph Lambert of Providence stepped in and saved the day. One of the clergy of Newport was also present as a witness.

For some time after the death of Colonel Astor on the Titanic, four years ago, Mrs. Astor lived quietly and almost alone in the Astor mansion on Fifth avenue, receiving occasional visits from the nearest friends. Many who thought she would be eager to take the position of social prominence her husband had given her were surprised to see her apparent indifference to the chances before her. But for two years after her husband's death her thoughts and attention were all for her home and child.

ONLY FRIENDSHIP THEIR FRIENDSHIP THOUGHT.

About a year ago she gave one of her first dinner parties at her home, and Mr. Dick, her husband, was among the guests. But at that time and for some while after there was no reason to suppose that more than the most casual friendship existed between the two. As time went on she entertained in a modest way with other parties trying at Aiken, S. C., and at Bar Harbor, Maine, to kindle a new interest in social affairs. Mr. Dick became a more frequent guest at her northern and southern homes, but scarcely frequent enough to warrant a suspicion of their approaching betrothal.

Mr. Dick has a fortune of between \$2,000,000 and \$3,000,000, an inheritance from his grandfather, William Dick, one of the pioneers in sugar refining. The inheritance has been substantially increased by judicious investment.

The marriage ceremony had few in attendance, save immediate relatives of the groom, his parents, his brothers-in-law, Horace Havemeyer, and W. Kingsley Macy, Mrs. Havemeyer, Mrs. Macy, Seth Barton French, Lyman N. Hine and W. Scott Pyle. Mr. Dick's brother, Adolph M. Dick, acted as best man. The bride was unattended but her younger sister, Katherine Force, was present.

GERMANY IN ROW NOW WITH SWITZERLAND

Berne, Switzerland, via Paris, June 22.—Federal Councilor Schultess announced in parliament today that Germany had made a demand that the Swiss government permit the exportation of cotton and foodstuffs collected in Germany by German agents.

If the demand is not complied with Germany will prohibit the exportation to Switzerland of coal, iron and other materials, meaning that the Swiss industries would be brought to a standstill.

The Swiss federal authorities are sending a delegation to Paris to confer with allied representatives in regard to the situation.

Uprising Against Turkey Reported

London, June 22.—Reports have been received here that a serious uprising against the Turks is in progress in Arabia and that the rebels have captured the Holy City of Mecca.

The London newspapers declare that the rebellion is certain to have an important bearing on the war, especially as regards the participation of Turkey.

The Post says: "The uprising is due to recent wholesale executions of Mohammedan and Syrian notables and well known religious leaders, and also to the spread in Arabia of a feeling that the Turks have abdicated their position as the protectors of the Mohammedans and have become the vassals of Germany."

A Reuter dispatch from Cairo says the rebels, in addition to taking Mecca, have captured Jiddah, the chief seaport of Arabia, and Taif, sixty-five miles southeast of Mecca, and have proclaimed independence of the Arabs from Ottoman rule.

According to this dispatch, the grand sheriff of Mecca, the chief magistrate of the Holy City, proclaimed his in-

dependence and was supported by the Arab tribes of the west and central parts of the country. He began operations about June 9 and won signal success.

It is said the garrisons of Mecca, Jiddah and Taif surrendered, with the exception of two small forts at Taif, which are still resisting. At Jiddah fifteen officers and 500 men and six guns were captured. Medina, 248 miles northwest of Mecca, which contains the tomb of Mohammed, is closely besieged and all communications to Hejaz are in the hands of the grand sheriff.

Local Deaths

Mrs. S. J. Powell.
The body of Mrs. Samuel J. Powell was yesterday sent to Gatesville and interment took place yesterday afternoon. Mrs. Powell had been sick for about two years and came to Waco for an operation. She died on Wednesday afternoon. She leaves two sons and one daughter at Gatesville. Mrs. Powell was 42 years of age and was born in Bell county. The body was sent to Gatesville by the L. C. Puckett Undertaking company.

Mary C. Terry.
The body of little Mary C. Turner, daughter of Mr. and Mrs. W. W. Terry of Yorkum, was received in the city last night by L. C. Puckett, undertaker, and will be shipped at 4:35 o'clock this morning over the Cotton Belt for Greenville. Interment will follow with afternoon.

If Too Fat Get More Fresh Air

BE MODERATE IN YOUR DIET AND REDUCE YOUR WEIGHT. TAKE OIL OF KOREIN.

Lack of fresh air is it is said weakens the oxygen carrying power of the blood, the liver becomes sluggish, fat accumulates and the action of many of the vital organs are hindered thereby. The heart action becomes weak, work is an effort and the beauty of the figure is destroyed. Fat put on by indoor life is unhealthy and if nature is not assisted in throwing it off a serious case of obesity may result.

When you feel that you are getting too stout, take the matter in hand at once. Don't wait until your figure has become a joke and your health ruined through carrying around a burden of unsightly and unhealthy fat.

Spend as much time as you possibly can in the open air; breathe deeply, and get from Morrison's Drug store or any druggist a box of oil of korein capsules; take one after each meal and one before retiring at night.

Weigh yourself every few days and keep up the treatment until you are down to normal. Oil of korein is absolutely harmless, is pleasant to take, helps the digestion and even a few days' treatment has been reported to show a noticeable reduction in weight.

To End Catarrhal Deafness and Head Noises

If you have catarrhal deafness and head noises go to your druggist and get 1 ounce of Farmint (double strength), and add to it 1-4 pint of hot water and 4 ounces of granulated sugar. Take 1 tablespoonful 4 times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should be open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial.

The body of Mrs. Samuel J. Powell was yesterday sent to Gatesville and interment took place yesterday afternoon. Mrs. Powell had been sick for about two years and came to Waco for an operation. She died on Wednesday afternoon. She leaves two sons and one daughter. Mrs. Powell was 45 years of age and was born in Bell county. The body was sent to Gatesville by the L. C. Pickett Undertaking company.

Mary C. Terry
The body of Little Mary C. Turner, daughter of Mr. and Mrs. W. W. Terry of Yorkum, was received in the city last night by L. C. Pickett, undertaker, and will be shipped at 4:30 o'clock this morning over the Cotton Belt for Greenville. Interment will follow this afternoon.

If Too Fat Get More Fresh Air

BE MODERATE IN YOUR DIET AND REDUCE YOUR WEIGHT. TAKE OIL OF KOREIN.

Lack of fresh air is it is said weakens the oxygen carrying power of the blood, the body becomes sluggish, fat accumulates and the action of many of the vital organs are hindered thereby. The heart action becomes weak, work is an effort and the beauty of the figure is destroyed. Fat put on by indoor life is unhealthy and if nature is not assisted in throwing it off a serious case of obesity may result.

When you feel that you are getting too stout, take the matter in hand at once. Don't wait until your figure has become a joke and your health ruined through carrying around a burden of unightly and unhealthy fat.

Send as much time as you possibly can in the open air; breathe deeply, and get from Morris's Drug Store or any drugist a box of oil of korein capsules; take one after each meal and one before retiring at night.

WACO AD CLUBBERS OFF FOR CONCLAVE

Waco delegates left for Dallas this morning at 4:40 o'clock to join the Texas party in the Ad club special steel train which will go by St. Louis into Philadelphia. The Ad club special leaves Dallas this morning at 9:30 and is due into St. Louis at an early hour Saturday morning. The only long stop of the party will be made in this city for practically a half day's entertainment. Philadelphia will be reached Sunday afternoon at 3 p. m. in time for the opening of the great advertising conclave. The convention will end on Friday.

Both St. Louis and Cincinnati are making a strong pull for the next convention. Waco delegates have been instructed to vote for the Missouri city in recognition for the many favors which that city has shown the Texans in the several stop-overs which have been made there in the past four years by parties en route to conventions.

Those who will go from here to Philadelphia are: W. V. Crawford, J. W. Carlin, D. P. Wallace, Fred A. Gildersleeve, F. A. Winchell and W. A. Mallory, Waco Ad club. The Y. M. B. L. and the Cotton Palace will be represented at the convention by W. H. Hoffmann. Other Wacoans who will make the trip are Dr. J. Ellen Gildersleeve and Miss Delilah Reed. The latter will join the party at Parsons, Kan.

To End Catarrhal Deafness and Head Noises

If you have catarrhal deafness and head noises go to your druggist and get 1 ounce of Farmint (double strength), and add to it 1-4 pint of hot water and 4 ounces of granulated sugar. Take 1 tablespoonful 4 times a day.
This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare. Costs little and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial.

AT THE HIPPODROME

Theda Bara, who is starring in this ever-appalling drama, has as her personal director Bertram Bracken, well known in Waco.

War Has Demoralized Prices In the Druggist's Sundries

No doubt many persons have been amazed at the startling advance in prices on many items of general use in the druggist's sundries line. Guy E. McKnight of the McKnight Sundries company is now in New York and other Eastern cities, and writes home very interestingly as to these upward values. Among other things he says: "Take the item of tooth brushes. Before the European war they were imported from France, England and Germany, and during the last few years from Japan. There is absolutely none coming over from Europe, leaving the demand to be supplied from Japan alone. The better grade of brushes are furnished by Russia and it is very difficult to get the bristles stock from Russia. The bone for handles are furnished by American packers, but freight rates, on account of the war, and the lack of freight ships to Japan, have advanced about 200 per cent, the result being an advance from 25 to 50 per cent on finished goods, and orders are from six to twelve months behind. There is now no such thing as a 5c tooth brush unless it is old stock bought some time ago.

"In musical merchandise, such as harmonicas, strings, violin rosin, etc., these goods are made nearly exclusively in Germany and Austria and there is none coming in from those countries. For awhile Germany got these goods into the United States via Holland, through neutral ports, but England has stopped that. There are millions of dollars' worth of German goods stored in Holland for the United States, where they will probably remain until the close of the European war, and New Yorkers believe this is a long time off.

"As to corsets, there are many cork factories in the United States, and the bark comes from Portugal, Spain and

South America. Very little crude material is coming over from Europe and the scarcity of ships from South America has caused the market on finished goods to increase about 25 per cent. "Chamois skins also are in the list. These are made from sheep pelts. The green skins are sent to Holland to be pickled, as that seems the only climate suitable for the purpose. This process requires about one year, when they are returned to the United States and dressed, ready for the market. On account of lack of transportation facilities, very little pickled skins are coming over, and there is a famine in chamois skins and prices have doubled and going higher.

"In American goods, this country is now supplying Europe in many lines. Factories over there having closed down, which has created an abnormal demand and great increase in prices. Lever thermometers, for this reason, have advanced 200 per cent. Everything made of steel, such as nail files, tweezers, manicure goods, are scarce and high, for the reason that steel mills are selling their product at a high price to ammunition and gun factories and will not let smaller factories have crude material. Leather goods, such as pocketbooks, purses, etc., have advanced on account of leather manufacturers supplying the harness trade for export orders.

"The same can be said of many other items in the sundries and small-wares lines, and our people will have to pay much higher prices than usual until the war in Europe is over. "Celluloid and white 'Parisian' ivory goods are made in this country, from gum camphor and gun cotton. These crude drugs are used in making explosives. Dupont, the gunpowder man, has bought up all the factories, and toilet articles are not now being made by them. The result is a scarcity and high prices."

The DOCTOR'S ADVICE by Dr. Lewis Baker

The questions answered below are general in character, the symptoms or diseases are given and the answers will apply in any case of similar nature.

Those wishing further advice free may address Dr. Lewis Baker, College Bldg., College, Ellwood Sts., Dayton, O., enclosing self-addressed stamped envelope for reply. Full name and address must be given, but only initials or fictitious name will be used in any answers. The prescriptions can be filled at any well-stocked drugstore. Any druggist can order of wholesaler.

lets with their meals. I have known very thin, nervous people to gain from 5 to 50 pounds from the use of these tablets.

"W. L." asks: "Why do you suppose I have such a sallow, pasty complexion? I think my kidneys may be affected, as I have pains in the small of my back all the time."

Answer: The pains in the back might indicate kidney trouble, and if you have headaches, your feet swell and your eyes have pains under them, you are in need of the immediate use of balmwort tablets to relieve this condition.

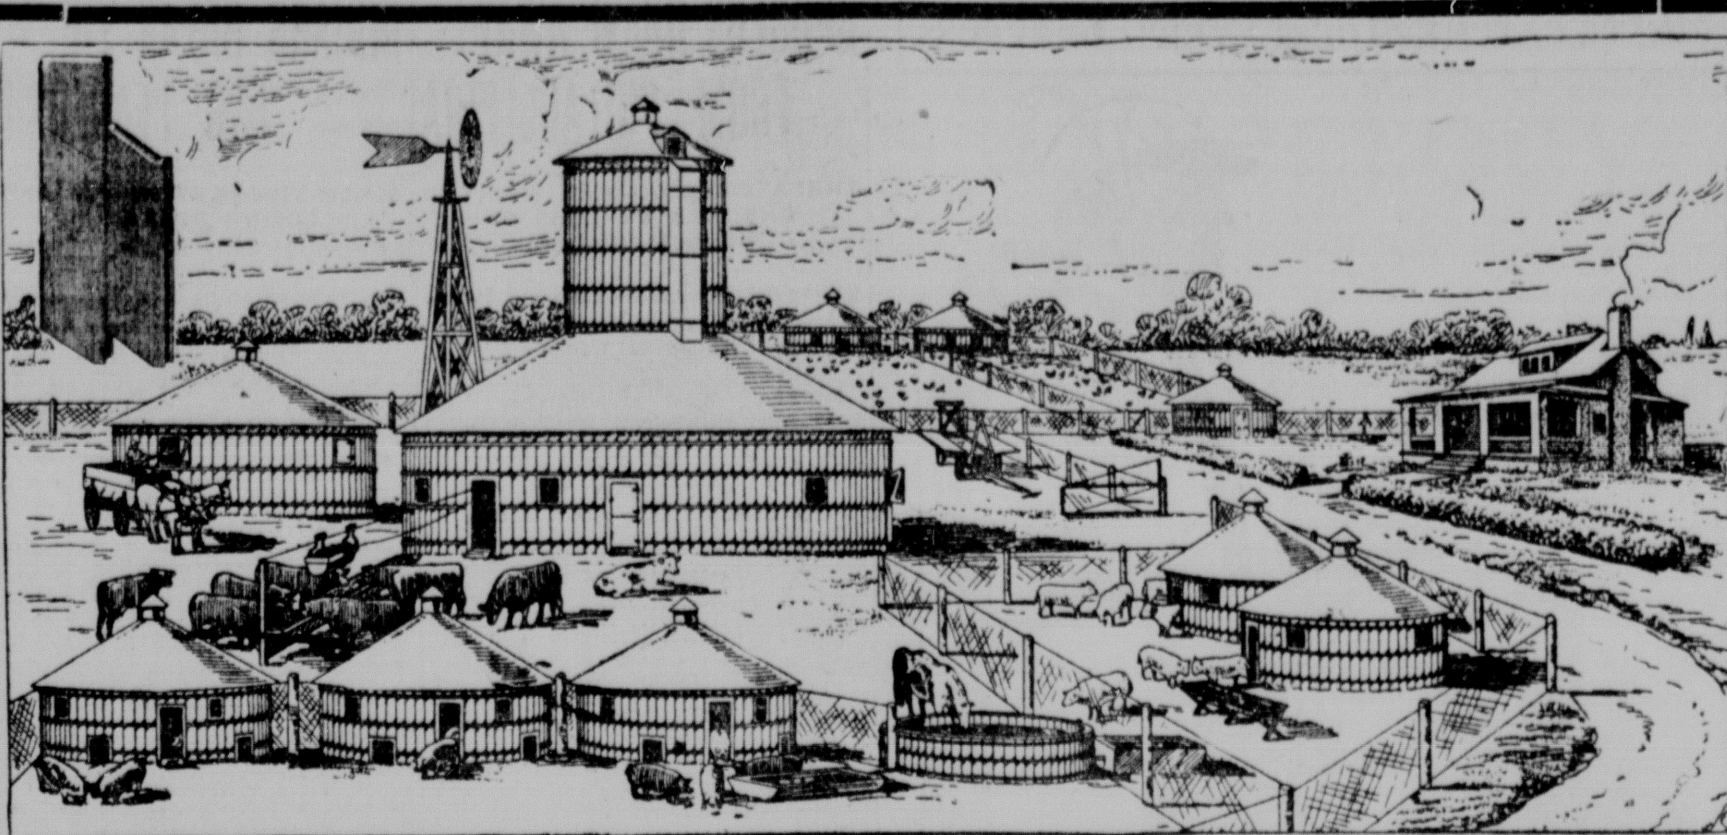

"Spring" writes: "I have two or three boils on my face and my complexion is yellow. My eyes are dull and my tongue coated. I am very nervous and tired all the time. Can't sleep at night, and am constipated."

Answer: Your blood and nerves are impoverished and diseased. This results from continued constipation. Get three-grain snifter tablets (not surbur). They should clean your blood, and digestion and stop constipation. The boils are indication of bad blood.

"Grace" writes: "My hair is awful looking. It is dry and broken and doesn't grow any more. When I scratch my scalp it comes off. I think it may be a kind of dandruff."

Answer: To overcome the itching scalp and make it healthy, use plain yellow mineral. The mineral will produce a beautiful soft, luxuriant growth of hair by properly cleaning and stimulating the scalp.

"East Lynne"

Theda Bara, the beautiful Fox "vampire," declares that in her last picture she has reached her heights in dramatic and emotional expression. This picture is the old story of "East Lynne" and will show at the Hippodrome today.

"East Lynne" at the height of its popularity was perhaps the most widely read book ever written. As a stage play it has endured in stock for decades after decades, and now comes the supreme revival of the old love story that millions have wept over through the medium of the motion picture screen. On top of this, he it remembered that one of the most widely known players of the theatrical world, Theda Bara, plays the part of the pathetic, beautiful, abused Lady Isabel. Ian Deely in the role of Arch Carlisle plays with Miss Bara convincingly. Stuart Holmes is, as always, an admirable villain. Levison. Booklet Claire Whitney, William H. Tooker.

Stanhope Wheatcroft and others are in the notable cast, and Leol and Edean Stewart play the famous roles of Little Isabel and Little Willie.

The old story is very well known to old and young in several countries, but a short review will remind one that Isabel is the wife of Carlisle, who broke with Barbara to wed the beautiful Isabel. After a few happy years of married life and after the birth of two beautiful children, misunderstandings arise. Barbara's brother is seeing a lowly girl, and when her father learns of it, he raises an objection with the result that in a fight the old man is killed. The boy's father exiles him, and when Barbara goes to Carlisle for aid, Levison, who covets Isabel, misinterprets her visit to Isabel. Isabel leaves her husband, and he, thinking she has gone with Levison and hearing later of her death, marries Barbara. How Isabel comes back to see her children, disguised and heartbroken, how little Willie grows ill, and the outcome will be remembered by every one who has read the famous old story of love.

Veteran Globe Trotter Is in the City

Albert Bauer, globe trotter, spent last night in Waco en route from Buffalo, New York, to the extreme end of South America. Bauer has been making his way around the world for about sixteen years, and he is still at it. This time he is traveling in a car, but usually he travels horseback. South America, with its Indian tribes and its spots of flourishing civilization is his hobby. He has made the South American trip from this country to the horn once before, taking seven years and twenty days to make it. On the previous trip he used ninety-six different horses. On the present trip he has used only three.

He was living among the Indians around the River Doubt made famous by Colonel Roosevelt, over three years before Mr. Roosevelt came to South America, he says. And he explained that there were several white men before him. Bauer has traveled over practically every country in the world and speaks some thirteen "lingoes." He will leave Waco this morning headed south.

City Issues Book on Weights and Measures

A neat little pamphlet just issued by the city contains the new weights and measures ordinance, which is in the hands of Weights and Measures Inspector J. E. Strother for its enforcement and efficiency.

The full ordinance is printed, and the little booklet contains a lot of instructions to housekeepers relative to the way to buy articles, the manner in which they should be weighed, and contains many other useful and practical suggestions, besides a table of weights and measures of various articles.

The booklet is one which is really valuable, so full is it of buying and

weighing suggestions, and housekeepers getting one will no doubt prize it and keep it. It contains also, suggestions to merchants and dealers, who are asked to co-operate in making the ordinance effective and binding upon all.

State Hotel Clerks Honor Fred C. Wolfe

Fred C. Wolfe was elected first vice-president of the Texas Hotel Clerks' association in San Antonio, and returned from that place yesterday morning. Mr. Wolfe thinks that the San Antonio meeting was one of the best that has yet been held by the hotel clerks of the state. There was a lot of discussion regarding the matter of handling persons who try to "beat" the hotels, the giving of bad checks, and kindred propositions, and Mr. Wolfe thinks that good results will follow the San Antonio meeting. He is one of the best known hotel clerks in the state, and the organization made no mistake in selecting him to serve.

It is probable that the hotel clerks, or the greeters, as they are known, will be organized in Waco at an early date, the local organization supplementing the state organization.

lets with their meals. I have known very thin, nervous people to gain from 5 to 50 pounds from the use of these tablets.

"W. L." asks: "Why do you suppose I have such a hollow, pasty complexion? I think my kidneys may be affected, as I have pains in the small of my back all the time."

Answer: The pains in the back might indicate kidney trouble, and if you have headaches, your feet swell and your eyes have puffs under them, your urine scant suggest the immediate use of balmwort tablets to relieve this condition.

"Spring" writes: "I have two or three boils on my face and my complexion is yellow. My eyes are dull and my tongue coated. I am very nervous and tired all the time. Can't sleep at night, and am constipated."

Answer: Your blood and nerves are impoverished and diseased. This results from continued constipation. Get three-grain, sulphur tablets (not sulphur). They should clean your blood, and digestion and stop constipation. The boils are indication of bad blood.

"Grace" writes: "My hair is awful looking. It is dry and broken and doesn't grow any more. When I scratch my scalp a kind of white, scaly, oily substance comes off. I think it may be a kind of dandruff."

Answer: To overcome the itching scalp and make it healthy, use plain yellow mineral. The mineral will produce a beautiful soft, luxuriant growth of hair by properly cleaning and stimulating the scalp.

GROVER BRANT HOLDS NAVS TO THREE HITS, NONE AFTER THE THIRD.

TWO ERRORS ARE COSTLY

Eddie Donalds' Twirls Good Game But Mates Will Not Make Runs for Him.

San Antonio, June 22.—Grover Brant held the Waco Navigators to three hits here today, one in each of the first three frames, and not a single afterward, the Nags defeating the visitors, 3 to 6.

Donalds was not hit hard, but put himself in the hole in the second frame after Connolly's box of Dee's roller, which started the frame.

On the hit-and-run Brant singled to right. Dee going to third. Brant singled to right and Dee scored. Bagan sacrificed the runners along. Stark walked, leading the bags. Wotell lined a short one to center. Donalds hit Westcott with a pitched ball, forcing Brant across the plate. Dunkel ended the frame, grounding to O'Whelien unassisted.

Clark started off the fourth with a double to left. Dee sacrificed him to third. James dropped Burch's fly and Clark scored. Thereafter both sides staged a pitching duel.

The visitors threatened in the first when Bittie opened with a double to deep right went to third on Coyle's sacrifice. Conwell fanned. With James up things looked stormy, but Brant wisely walked him. On an attempted double steal Bittie was out at the plate. Burch to Stark to Burch. After one was down in the second Reilly singled to right, but Wotell fell into a double play.

The visitors again threatened in the third, when Malmquist was safe on Stark's boot and went to third on Donalds' single. Bittie bunted out, but Malmquist was held on. Coyle popped out. Dee robbed Conwell of a single and 'twas over. Reilly pulled an unique play in the eighth, catching Clark's pop-up and running to first to double Dunkel unassisted. The score:

"PIRATE CATCHERS BEST EVER"—DREYFUSS

Art Wilson (left) and Walter Schmidt.

"Our catching department is the best the club has ever known," boasts Barney Dreyfuss, owner of the Pittsburgh Pirates. He says Walter Schmidt is the best catcher he ever laid eyes on and that Art Wilson, catcher secured from the Cubs, is coming along fine.

Brazos Barges Will Carry Materials Down River

In view of the fact that work is practically completed on the lock and dam below Waco, arrangements are making for removing the machinery, material and general supplies of the government down the Brazos river to a point opposite Marlin, where the next lock and dam will be built.

These things will be barged down the river, and in addition to the two or three barges now on hand several others will be built, in fact, two are now under construction and others will be put under construction soon. It will require a little fleet of these barges, probably more than a half dozen, and they will demonstrate the fact that loads can be carried on the river, even below the lock and dam here. Another lock and dam will be built about opposite Marlin and yet another one near High Bank on the Brazos, and some of the material and machinery may be sent there.

As soon as the water is backed up in the Brazos river the people at Waco will, it is thought, take still more interest in the Brazos project. Everything is said to be about ready for making this test now.

Citizens Are Giving No Attention to Weeds, Is Claim

The residents inside the city limits must absolutely give more attention to the weeds on their sidewalks, and must see that these weeds are cut; this is the position taken by Health Commissioner W. H. Cockcroft, who says that he is not getting the co-operation that he should have, at all, in the matter of the weeds on the sidewalks. Residents are asked to clear off their sidewalks and thus aid in the campaign for greater sightliness and greater healthfulness. The city is cutting the weeds in the alleys as rapidly as they can get to same, but it is claimed that residents are not doing their part as to weeds on sidewalks.

An ordinance is to be brought in which will give the city authority to require owners of vacant lots to keep these clear of weeds, also.

Declares He Can Take Care of Recruiting

Lieut. J. M. Dewberry, who is enlisting men for service in the Mexican imbroglio, said yesterday afternoon: "There has been a misunderstanding all around about this enlistment of prisoners for service, and the kicks which have been registered against the enlistment of prisoners were useless in view of the fact that we are not enlisting prisoners. Not only have we not enlisted prisoners, but there is no intention of doing so. A man to enlist must be in good health, of good moral and must be a citizen of the United States.
"If the recruiting business is left to me I will see that it is done properly."

Chamber of Commerce Directors

J. B. EARLE.

Counted probably the most aggressive telephone man in Texas, J. B. Earle has always been essentially a builder and his loyalty to Waco's commercial organizations has been undoubted. He is a Waco product, having been born here and having lived here continuously. As president of the Texas Telephone company, Mr. Earle has just built and moved his company into one of the most modern exchange buildings in the South—a structure which is built as much for the comfort of the employees as for the mechanical efficiency of the system. He is now president of the company that has recently absorbed the other local system, and which has local and long distance exchanges throughout Texas, and is now a director in the United States Association of Independent Telephone companies. He began with a tiny exchange in Waco with hardly a hundred subscribers about eighteen years ago and has built up his great organization largely by personal force. Mr. Earle is a director in the Central Texas Exchange National bank, is president of the Home Light and Power company and is a director of the Employers' Insurance Association of Texas. Mr. Earle has been a heavy contributor to the work of the Chamber of Commerce and within the last few days he has leased the two-story brick formerly used by the telephone company in order to give the Chamber the possibilities of a new home which has been a goal for some time.

Fifth Street Men Have Merry Banquet

The men of the Fifth street Methodist church were banqueted last evening by the official board and approximately a hundred were present. J. D. Willis was toastmaster for the evening. The theme carried out was the "Race," which was adhered to by all speakers. Sam Knight chose as his subject, "Thoroughbred." The "Start" was handled by Hon. W. L. Eason. "The Race That Kills," was ably handled by T. Edgar Johnston. "The Race," was the topic assigned Hon. Nat Harris. "The Gait That Wins," was handled by C. J. Clanton. J. W. Hester favored the banqueters with, "The Old Arm Chair," to which he was forced to respond several times with encores. The occasion was a "get together" meeting, being the second annual affair and all present seemed to enjoy themselves most immensely.

WILL PROHIBIT HOG PENS AROUND HOMES

PIGSTIES CANNOT BE PLACED WITHIN 200 FEET OF ANY RESIDENCE.

TO CONSIDER PHONE BILLS

Commissioners Will Confer on Double Phone Charges—Want Weeds Cut.

No more hog pens within 200 feet of a residence in Waco, was the decree which went out from the city commission yesterday morning through the passage of an ordinance which was presented by Commissioner J. D. Harlow.

The commissioners objected to certain charges proposed on residents in cases where two telephones are in residence and business houses after the "cut over," but this will be amicably determined this afternoon by a report of the mayor and city attorney. Mr. Blomeyer having indicated that the wishes of the commission would govern in the matter.

An ordinance, presented by Commissioner J. D. Harlow was passed which closes all wholesale liquor houses in the city from 9:30 at night until 6 o'clock each morning. The ordinance was passed under suspended rules and by unanimous vote.

Health Commissioner Cockcroft asked for an ordinance requiring owners of vacant lots to cut weeds on same, and this will be brought in. Commissioner Ben Richards brought up the question of the condition of the cotton yard at Third and Weber streets. It was decided by the commission to file complaint against the operators of the yard unless a fence is erected to prevent cotton getting out of the yard.

WILL INSPECT PALACE GROUNDS.

A committee from the Cotton Palace came before the commission asking that certain improvements be made on Clay street about Fifteenth street, in order to further protect a part of the Cotton Palace grounds from overflow; also asking that a hole in front of the grand stand at the race track be filled this hole having been caused by the bed of the creek being turned. This will receive attention. The committee also consisted of E. F. Carroll, Forrest Goodman, John Wright, Seth Mayfield, E. F. Drake, Tom E. Bush and W. V. Crawford. It was decided that the mayor and city commission would meet on the grounds at 4 o'clock yesterday afternoon to go over the situation and make a personal inspection.

E. C. Blomeyer, assistant to the president of the Texas Telephone company, appeared before the commission and said that while some complaints were still being made regarding the service, incident to the changes which are taking place, that the number of complaints was rapidly dwindling. Extra men and extra equipment were being put on to keep matters in the best condition possible, and ere long all cause of complaint will have been removed.

Commissioner Ben Richards asked Mr. Blomeyer if the telephone company intended to charge citizens of Waco who had both telephones in their residences and business houses for the use of both telephones from the date of the "cut over."

Mr. Blomeyer said that it had been intended to make out bills for these telephones.

Commissioner Richards said that he would strongly oppose this charge against the citizens for both telephones under the circumstances. It was decided to appoint Mayor John Dollins and City Attorney John Maxwell to investigate as to the proposed charges, and advise Mr. Blomeyer as to the city's viewpoint. Mr. Blomeyer said that the decision of the city commission regarding the matter would be satisfactory to the telephone company.

Commissioner Richards said he wanted to thank the telephone company for its activity in making the "cut over," and that he realized that it had been necessary to work night and day to effect this. Mr. Blomeyer thanked the commission and asked them for as quick action as possible on the telephone matter.

Alfred Abeel asked the commission to have the Katy railroad move its tracks and some equipment so it would not hamper his property on Jackson street between Sixth and Eighth street. The commission, by vote, decided to ask the Katy to get tracks clear of the gutter line.

A representative of the Waco Musicians' association was present and said that the musicians would send a committee to the next regular meeting of the city commission to bid on the contract for the band concerts at parks during the summer.

The bond of J. B. Strother, sidewalk inspector and weights and measures inspector, was approved, being for \$1000. Dr. E. D. Hodges, acting city physician, presented the report for May of this department. The commission asked for a more detailed report, and did not accept the report made.

The bid of the Waco Tribune for the city printing was accepted, being on the same basis as last year.

SELEY PARK PRACTICALLY COMPLETED.

Park Commissioner J. D. Harlow said that the C. M. Seley park on Colonial Hill was about complete. W. W. Seley having spent much money in fixing up the park he was presenting to the city. He asked whether the city wanted to have the park piped for water, the commission authorized Commissioner Harlow to have the park piped for water.

An ordinance presented by Commissioner J. D. Harlow was passed under suspended rules, this ordinance requiring that all wholesale liquor houses in the city be closed from 9:30 in the evening until 6 each morning. This passed unanimously.

Another ordinance was presented by Commissioner Harlow providing that there should be no hog pen placed within 200 feet of a residence. This passed, but Commissioner Richards voted "no," asking for one week in which to consider it before voting. Commissioner Cockcroft asked for the bringing in of an ordinance making it obligatory on lot owners to cut weeds on their vacant lots, and this was acted on favorably, the ordinance to be brought in.

Commissioner Richards was authorized.

Brazos Barges Will Carry Materials Down River

In view of the fact that work is practically completed on the lock and dam below Waco, arrangements are making for removing the machinery, material and general supplies of the government down the Brazos river to a point opposite Marlin, where the next lock and dam will be built.

These things will be barged down the river, and in addition to the two or three barges now on hand several others will be built, in fact, two are now under construction and others will be put under construction soon. It will require a little fleet of these barges, probably more than a half dozen, and they will demonstrate the fact that loads can be carried on the river, even below the lock and dam here. Another lock and dam will be built about opposite Marlin and yet another one near High Bank on the Brazos, and some of the material and machinery may be sent there.

As soon as the water is backed up in the Brazos river the people at Waco will, it is thought, take still more interest in the Brazos project. Everything is said to be about ready for making this test now.

Citizens Are Giving No Attention to Weeds, Is Claim

The residents inside the city limits must absolutely give more attention to the weeds on their sidewalks, and must see that these weeds are cut; this is the position taken by Health Commissioner W. H. Cockcroft, who says that he is not getting the co-operation that he should have, at all, in the matter of weeds on the sidewalks.

Residents are asked to clear off their sidewalks and thus aid in the campaign for greater sightliness and greater healthfulness. The city is cutting the weeds in the alleys as rapidly as they can get to same, but it is claimed that residents are not doing their part as to weeds on sidewalks.

An ordinance is to be brought in which will give the city authority to require owners of vacant lots to keep these clear of weeds, also.

Declares He Can Take Care of Recruiting

Lieut. J. B. Dewberry, who is enlisting men for service in the Mexican imbroglio, said yesterday afternoon: "There has been a misunderstanding all around about this enlistment of prisoners for service, and the kicks which have been registered against the enlistment of prisoners were useless in view of the fact that we are not enlisting prisoners. Not only have we not enlisted prisoners, but there is no intention of doing so. A man to enlist must be in good health, of good morals and must be a citizen of the United States. "If the recruiting business is left to me I will see that it is done properly."

Chamber of Commerce Directors

J. B. EARLE.

Counted probably the most aggressive telephone man in Texas, J. B. Earle has always been essentially a builder and his loyalty to Waco's commercial organizations has been undoubted. He is a Waco product, having been born of one of the pioneer families of the city and having lived here continuously. As president of the Texas Telephone company, Mr. Earle has just built and moved his company into one of the most modern exchange buildings in the South—a structure which is built as much for the comfort of the Home Light and Power company of the Home Light and Power company of Mart and is a director of the Employers' Insurance Association of Texas. Mr. Earle has been a heavy contributor to the work of the Chamber of Commerce and within the last few days he has leased the two-story brick formerly used by the telephone company to the organization at a very low figure in order to give the Chamber the possibilities of a new home which has been a goal for some time.

Fifth Street Men Have Merry Banquet

The men of the Fifth street Methodist church were banqueted last evening by the official board and approximately a hundred were present. J. D. Willis was toastmaster for the evening. The theme carried out was the "Race," which was adhered to by all speakers. Sam Knight chose as his subject, "Thoroughbred." The "Star" was handled by Hon. W. L. Eason. "The Face That Kills" was ably handled by T. Edgar Johnston. "The Race," was the topic assigned Hon. Nat Harris. "The Gait That Wins," was handled by C. J. Clanton.

J. W. Hester favored the banqueters with "The Old Arm Chair," to which he was forced to respond several times with encores.

The occasion was a "get together" meeting, being the second annual affair and all present seemed to enjoy themselves most immensely.

WILL PROHIBIT HOG PENS AROUND HOMES

PIGSTIES CANNOT BE PLACED WITHIN 200 FEET OF ANY RESIDENCE.

TO CONSIDER PHONE BILLS

Commissioners Will Confer on Double Phone Charges—Want Weeds Cut.

No more hog pens within 200 feet of a residence in Waco, was the decree which went out from the city commission yesterday morning through the passage of an ordinance which was presented by Commissioner J. D. Harlow.

The commissioners objected to certain charges proposed on residents in cases where two telephones are in residences and business houses after the "cut over," but this will be amicably determined this afternoon by a report of the mayor and city attorney. Mr. Blomeyer having indicated that the wishes of the commission would govern in the matter.

An ordinance, presented by Commissioner J. D. Harlow, was passed which closes all wholesale liquor houses in the city from 9:30 at night until 6 o'clock each morning. The ordinance was passed under suspended rules and by unanimous vote.

Health Commissioner Cockcroft asked for an ordinance requiring owners of vacant lots to cut weeds on same, and this will be brought in. Commissioner Ben Richards brought up the question of the condition of the cotton yard at Third and Webster streets. It was decided by the commission to file complaint against the operators of the yard unless a fence is erected to prevent cotton getting out of the yard.

WILL INSPECT PALACE GROUNDS.

A committee from the Cotton Palace came before the commission asking that certain improvements be made on Clay street about Fifteenth street, in order to further protect a part of the Cotton Palace grounds from overflow; also asking that a hole in front of the grand stand at the race track be filled this hole having been caused by the bed of the creek being turned. This will receive attention. The committee appearing consisted of E. F. Carroll, Ford Goodman, John Wright, Seth Mayfield, E. F. Drake, Tom F. Bush and W. V. Crawford. It was decided that the mayor and city commission would meet on the grounds at 4 o'clock yesterday afternoon to go over the situation and make a personal inspection.

E. C. Blomeyer, assistant to the president of the Texas Telephone company, appeared before the commission and said that while some complaints were still being made regarding the service, incident to the changes which are taking place, that the number of complaints was rapidly dwindling. Extra men and extra equipment were being put out on to keep matters in the best condition possible, and ere long all cause of complaint will have been removed. Mr. Blomeyer if the telephone company intended to charge citizens of Waco who had both telephones in their residences and business houses for the use of both telephones from the date of the "cut over."

Mr. Blomeyer said that it had been intended to make out bills for these telephones. Commissioner Richards said that he would strongly oppose this charge against the citizens for both telephones under the circumstances. It was decided to appoint Mayor John Dolins and City Attorney John Maxwell to investigate as to the proposed charges, and advise Mr. Blomeyer as to the city's viewpoint. Mr. Blomeyer said that the decision of the city commission regarding the matter would be satisfactory to the telephone company.

Commissioner Richards said he wanted to thank the telephone company for its activity in making the "cut over," and that he realized that it had been necessary to work night and day to effect this. Mr. Blomeyer thanked the commission and asked them for as quick action as possible on the telephone matter.

Alfred Abel asked the commission to have the Katy railroad move its tracks and some equipment so it would not hamper his property on Jackson street between Sixth and Eighth street. The commission, by vote, decided to ask the Katy to get tracks clear of the gutter line.

A representative of the Waco Musicians' association was present and said that the musicians would send a committee to the next regular meeting of the city commission to bid on the contract for the band concerts at parks during the summer.

The bond of J. B. Strother, sidewalk inspector and weights and measures inspector, was approved, being for \$1000.

Dr. E. D. Hodges, acting city physician, presented the report for May of this department. The commission asked for a more detailed report, and did not accept the report made.

The bid of the Waco Tribune for the city printing was accepted, being on the same basis as last year.

SELEY PARK PRACTICALLY COMPLETED.

Park Commissioner J. D. Harlow said that the C. M. Seley park on Colonial Hill was about complete. W. W. Seley having spent much money in fixing up the park he was presenting to the city. He asked whether the city wanted to have the park piped for water, the cost to be about \$200. The commission authorized Commissioner Harlow to have the park piped for water.

An ordinance presented by Commissioner J. D. Harlow was passed under suspended rules, this ordinance requiring that all wholesale liquor houses in the city be closed from 9:30 in the evening until 6 each morning. This passed unanimously.

Another ordinance was presented by Commissioner Harlow providing that there should be no hog pens placed within 200 feet of a residence. This passed, but Commissioner Richards voted "no," asking for one week in which to consider it before voting.

Commissioner Cockcroft asked for the bringing in of an ordinance making it obligatory on lot owners to cut weeds on their vacant lots, and this was acted on favorably, the ordinance to be brought in.

Commissioner Richards was authorized.
